FRENCH MARRIAGE THEORY DANGEROUS SAYS DOWD

UNIVERSITY PROFESSOR SAYS IT WOULD DESTROY SOCIETY.

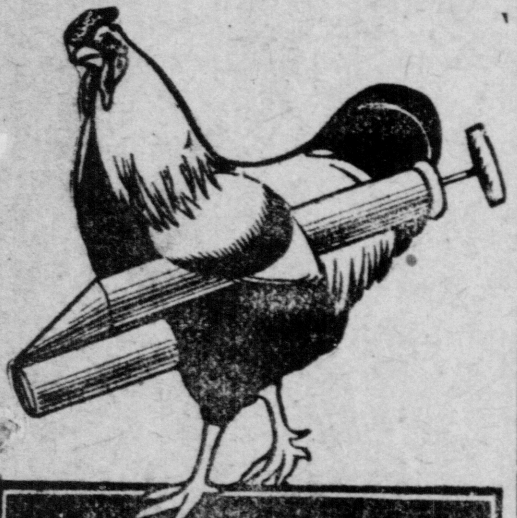

Does Not Believe in Mating as The Birds in Spring.

Norman, Okla., June 19.—"In the near future men and women will marry and separate whenever they choose, and there will be no legal marriages, but men and women will be held together by ethical rules." This is the opinion of K. J. Letourneau, the eminent French sociologist. He declares that as a result men and women will have higher morals and will be better mated, and there will be more liberty and equality. There will be no more illegitimate children and adultery will be wiped off the category of crime. The state will rear and educate the children.

Dr. Jerome Dowd, former professor of sociology in the Wisconsin University, and now head of the economic and sociology department of the Oklahoma University, says that Dr. Letourneau's plan would destroy civilization. "The family is the integral part of our civilization," he says, "and the thing that makes women so idealized is their rearing of children. The family is necessary for the child. More criminals and prostitutes come from establishments maintained by the state than from the homes. If we were to follow Dr. Letourneau's scheme none but the rich could own children and the race would become extinct after while."

Court Reconvenes.

District court reconvened this morning, with Judge Robert M. Rainey on the bench. The civil docket was taken up, the court having decided to rest the criminal business for this term.

RACE SUICIDE NOT FASHIONABLE IN OKLAHOMA

MONTH OF APRIL A RECORD BREAKER IN MATTER OF BIRTHS.

Over Five Human Beings Per Hour Was Ushered Into Existence.

Guthrie, Okla., June 19.—Births in Oklahoma for the month of April averaged over five an hour, according to State Health Officer Mahr's June report, just issued. The number of births was 3,848, with eleven counties not reporting, and the number of deaths was 1,198, leaving a net increase in births 2,650, or a net average for the month of nearly four each hour. The gross figures show that 995 of the births were males and 929 females, 1,870 white and 54 black. Of the deaths 322 were males, 277 females, 553 white and 46 black.

Adair and Nowata Counties report births, but no deaths. Pittsburg County lead in births, reporting 244, next being Pottawatomie County, with 236. Oklahoma County 178, Grady County 160.

The report also shows a decided improvement in Oklahoma health conditions, and a reduction of the mortality in contagious and infectious diseases. Pneumonia led in diseases for the month, and shows the greatest percentage of cases lost. Of 382 cases of pneumonia 152 were fatal. Smallpox exhibits the most favorable record, as of the 263 cases reported none were fatal. Scarlet fever records three deaths out of 104 cases. Tuberculosis nearly 50 per cent loss, as of the 105 cases recorded, 48 patients died. Typhoid, 6 out of 26 died. Diphtheria, only 4 died out of 33.

The department has inaugurated war upon the house fly, and urges the people to use house screens, saying in the bulletin:

"There is no doubt that insects are disease conveyers, and that some of the germs find their way into the food and the water supplies. They live and breed in all kinds of filth, infect food and drink with germ laden feces, each female lays 150 eggs, and the only way to protect against them is to keep them out. The number of deaths from typhoid fever and intestinal diseases increase and decline with the fly during the season. In New York City 650 deaths from typhoid and 7,000 from intestinal diseases have been traced to the harmless insect. The most useful device known in the last quarter of a century is the common window and door screen. Put up screens."

The bulletin refers to the so-called nine-foot sheet law of Oklahoma, which has for its purpose rigid inspection of hotels and boarding houses to the end that they be kept sanitary, which has been the subject of much ridicule, and announces that many of the surrounding states, as well as some in the East have enacted laws following that of Oklahoma.

LARGEST CONTRACT EVER OPENED IN OKLAHOMA

BIDS TO MAKE BIG IMPROVEMENTS AT FORT SILL.

Fourteen Firms From Various Cities in United States Seek to Work for Federal Government.

Fort Sill, Okla., June 18.—Bids were opened at Fort Sill by Construction Quartermaster Stone, June 10, for the construction of improvements amounting to more than \$700,000 for the erection of fifty-two new buildings, exclusively of a central heating plant to be opened later.

Fifteen bids were submitted, ranging in price from the \$708,000 offered by Lyster & Lowe of Dayton, Ohio, to nearly a million. This is the largest contract for buildings ever opened in Oklahoma.

The bidders were: Texas Building Co., Fort Worth; Fred Terry, Leavenworth, Kan.; J. T. Dutton & Son, Junction City, Kan.; Thos. Jones & Son, Leavenworth, Kan.; H. C. Sette Co., St. Louis, Mo.; W. G. Filled, Leavenworth, Kan.; T. A. Seinger, St. Louis, Mo.; L. Crosby & Son, Kansas City, Mo.; J. G. Barnes, Leavenworth, Kan.; Mosler & Summer, Buffalo, N. Y.; Lyster & Lowe, Dayton, Ohio; Waters & Wass, Apache; J. B. Bates, Topeka, Kan.; Ziegler Bros., Junction City, Kan.

These improvements are only the beginning of a series that will cost several million dollars, making Fort Sill the largest and most complete military post in the United States.

Very little money has been expended at Fort Sill. The Fort was built originally by soldiers labor and the total amount of appropriations within the past twenty-five years for permanent improvements would not aggregate \$50,000.

The buildings to be constructed are as follows: One Colonel's quarters, two field officers' quarters, seven double officers' quarters, three four-set officers' quarters, six field artillery barracks, one band barracks, four double sets N. C. O. quarters, one administration building, one post exchange, two storehouses, one bakery, six battery stables, one band station, one G. M. stable, three double stable guard and shop buildings, six gun sheds, two hay sheds, one granary, one coal shed, one wagon shed, one pump house.

TEN ARE INDICTED ON NIGHT RIDER CHARGE

EXCITEMENT PREVAILS IN THE NEIGHBORHOOD OF PURDY.

Grand Jury Will Reconvene and Other Indictments May Follow.

Purcell, Okla., June 19.—Indictments were returned by the grand jury today against Barney Hanks, Charles Barnes, W. A. Wallace, M. L. Spencer, Samuel Spencer, A. L. Bledsoe, Albert Bacon and Matt Hanks charging them with being members of a band of night riders that has infested the western half of McClain county during the last several months. Each of the defendants had previously been arrested on warrants issued by County Attorney Franklin. Two other indictments were returned in these cases, but were not made public.

Considerable excitement prevails in the vicinity of Purdy, the little town near which the night rider depredations have been committed, and a witness from that settlement said today that several families have moved from the county on account of the organization.

The grand jury will reconvene Monday and other indictments may be returned. It is probable that several of the cases will be tried during the current term of district court.

Look! Look! Look!

The cheapest property in the city, corner of 18th and Johnston, two acres less streets and Alley, one 8 roomed house, plastered throughout, barn, chicken house, well, windmill, over ground tank, fruit trees and berries, one block west of southside High school. This property can be bought for \$2500 if taken the next 30 days, \$1,500 on time. The Nettles Real Estate Co. 60-11

TOURNAMENT RACE JULY 5TH

One of the interesting attractions of the fourth of July celebration will be a tournament race in which any one who wishes may enter.

The following rules will be observed. Rule one. All riders in this contest will be on the grounds at 3.00 o'clock, p. m. on July 5th, '09.

Rule two. When there is a tie for any one prize, the riders making the tie, whether two or more shall ride the tie off, and the one holding the greatest number of rings shall be the winner of the contested prize, and the losers of this tie race shall not have any right to any other prize offered in this race.

Rule three. No rings will be allowed other than those brought to the Judge on the cues and accounted for by him.

The time that the race must be made in, will be decided after some practice and an average time of horses can be had.

The time keeper and the Judge will be elected on the grounds soon before the races begin by the riders.

First prize 21 jewel Waltham watch valued at \$35.00. In event of a tie second best man will be awarded a \$2.50 pair spurs by R. E. Haynes.

Second prize \$10.00 in gold. In event of tie second best man one box of silk hose \$2.50. Other prizes: \$5.00 pair shoes by Katz & Rosenfield. \$5.00 pair shoes by S. E. Chapman. \$6.00 Stetson hat by Texas Department Store. \$6.00 Kodak by G. M. Ramsey. \$5.00 Mercham Pipe by Gwin & Mays Co. \$5.00 pair of clothes brushes by F. Z. Holley. \$5.00 bridle by H. C. Evans. \$5.00 vest by I. Harris. \$5.00 pair pants by C. C. Nash. \$3.00 gold stick pin by Harry Sprague. \$3.00 China Plate by S. M. Shaw. Sack of bran and sack of chops by Simple Feed & Produce Co. 100 cigars by Mad-ox-Drug Co. 50 cigars by Tobin & Coffman.

Other premiums may be offered. Get in on this and be game.

TAFT WILL STAY IN WASHINGTON

NOT TO LEAVE CAPITAL UNTIL TARIFF DISCUSSION IS ENDED.

If Congress Convenes Until Late This Will be Impossible.

Washington, June 19.—President Taft has given up the notion that he will be able to leave Washington for the summer on July 3. Accordingly it was announced at White House today that on that date the president will take Mrs. Taft and the children to Beverly, Mass. and then after filling several engagements that he has made, return to Washington and stick it out alone at the White House until congress gets ready to quit.

Mrs. Taft's health is improving, so that the president may be able to make his contemplated western trip, if congress adjourns in time to give him a rest before starting on such a long journey.

But if the president is kept in Washington till late in the summer as now appears probable, he will not be disposed to leave for the west without getting a much needed rest. Under the circumstances the western trip begins to look less probable than it did some time ago.

MOTION IN SEPTEMBER.

Federal Attorney and Governor's Counsel Reach an Agreement.

McAlester, Okla., June 19.—As the result of a conference between United States District Attorney Gregg and Judge C. B. Stuart, leading counsel for Governor Haskell, the motions and answers in the Muskogee town lot cases will be filed September 1, but in case the judge is not to be in the state after August 1 they may, by later agreement, be filed on that date, but as the date now stands nothing will be done in the matter until September.

In the federal court today two minor cases were disposed of, the grand jury returning two sealed indictments, and court adjourned to Monday morning.

MEN OR YOUNG MEN Who Put Their confidence in us in this matter of clothes are entitled to know the truth about what they buy here; and we're glad to have them know it; there's nothing here that we're afraid to tell the truth about.

Hart Schaffner & Marx clothes are all-wool; and all-wool is the only real, full value in clothes. We have some clothes that are not all-wool; we'll tell you so if you select any of them. We don't advise you to buy cotton-mixed goods; they're mostly disappointing, and that's bad for us as well as you. We have them here to sell to men or the young men who are not yet wise enough to insist on all-wool.

We'll try to persuade you to buy Hart Schaffner & Marx all-wool clothes that were

18.50 to 25.00

but just now we are having cut prices in all our high price suits. They will cost you now much less than before.

We Carry All Kinds of Underwear.

Sleeves long or short. Drawers in knee lengths and full lengths 25c and 50c.

Union Suits.....\$1 and \$1.50 Night Shirts.....65c to \$1
Pajamas.....\$1.25 to \$2.00 Silk Ties.....25c to 50c

TWO CAPTURED AT PROCTOR.

Men Taken Into Custody Following
Attempt to Hold Up and Rob
Crew of Train.

Muskogee, Okla., June 19.—After
trailing two robbers, who attempted
to rob a freight train at Braggs, and
in a pitched battle shot and killed
Deputy Constable Kirk and wounded
Constable Wicks yesterday morning,
Deputy Sheriff W. H. Clarks of
Braggs and Willie Bryan, a full-blood
Cherokee, captured two men this
afternoon at Proctor, Okla., sixty-

five miles north of the scene of the
robbery. The men gave their names
as Fred Donaldson of Florida and
Fred Wright of Washington.

The men were fatigued and hun-
gry and surrendered without show-
ing fight.

Deputy Clark said that he follow-
ed the trail on horseback until they
struck the dense timber in the Cher-
okee wilds, and then Bryan, who
has a reputation for being very ex-
pert on the trail, followed them on
foot.

When they reached the Frisco road
they secured a hand car from a
gang of section men and pumped
their way to Proctor. At this place
they learned two men had just left
the town. Securing two additional
officers, Clark started on the trail.
He saw a camp beside the railroad,
and sent two of his men to surround
the campers.

Seeing they were surrounded, the
men threw up their hands. They
were unarmed.

Neither of the men will make a
statement except that the two men
captured this afternoon are not guilt-
ty. The men were brought here late
this afternoon and are confined in
jail under a heavy guard.

A Correction.

In Saturday's issue of the News the
statement appeared that Mr. T. B.
Liner had secured the position as
penmanship teacher in the State
Normal. It should have read the
County Normal.

Boring Well for Oil.

Guthrie, Okla., June 19.—With the
belief that Woods County is resting
over oil and gas, people are boring
near Alva, according to Harry A.
Noah, an attorney of that place.

"We are now down 1,700 feet and
expect to go to 3,000," said Mr. Noah,
"and at least find out just what the
indications are below us. So far we
have found no limestone, so preva-
lent in Oklahoma east of the Arkan-
sas River, the Woods County forma-
tions being chiefly shale. There is
one strata about five feet thick of
what geologist call shell rock, and
the general character bears out the
theory that Oklahoma was at one
time under water."

Mr. Noah, as well as others, be-
lieves that practically all of Oklaho-
ma is oil and gas territory.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the
sense of smell and completely de-
range the whole system when enter-
ing it through the mucous surfaces.
Such articles should never be used
except on prescriptions from reput-
able physicians, as the damage they
will do is ten fold to the good you
can possibly derive from them: Hall's
Catarrh Cure, manufactured by F. J.
Cheney & Co., Toledo O., contains no
mercury, and is taken internally, act-
ing directly upon the blood and muc-
ous surfaces of the system. In buying
Hall's Catarrh Cure be sure you get
the genuine. It is taken internally
and made in Toledo, Ohio, by F. J.
Cheney & Co. Testimonials free.

Sold by Druggists. Price 75c per
bottle.

JIM CROW CASES DISMISSED.

Complaints Against All Roads but One Are Withdrawn From Corporation Commission.

Guthrie, Okla., June 19.—Cases against Oklahoma railroads filed with the Corporation Commission by S. Douglass Russell of Langston and Dr. W. H. Gernagin of Oklahoma City, both negroes, for better Jim Crow accommodations, were dismissed today, save as to the F. S. & W., which were continued for the term. Among other things, the negroes ask for sleeping cars and first and second class day coach accommodations. Cases against the Midland Valley and the Katy were dismissed by the complainants agreeing the service was sufficient, and in the cases against the Frisco, R. I. and Santa Fe, the roads agreed by January 1, through those sections of the State where negro travel is substantial, to haul Jim Crow cars first and second class with conveniences for the sexes in each. There is no agreement as to sleeping car accommodations. Action was brought under the Constitution, that requires the facilities of the races to be equal.

RAILROAD TAX INCREASE.

Oklahoma Board of Education Ratifies Assessments of Several Roads in New State.

Guthrie, Okla., June 19.—The State Board of Equalization has ratified the 5 per cent increase over last year in the assessments on the main track including branches, of the Atchison, Topeka and Santa Fe, the Gulf Colorado and Santa Fe, the Wichita Falls and Northwestern, the Kansas and Arkansas Valley, (Frisco), the Frisco System, the Colorado, Texas and Mexican, the Midland Valley, the Kansas City Southern, the Arkansas Western and the Missouri, Kansas and Texas. Sidetrack and buildings will be finally passed upon next week. The Kansas City, Mexico and Orient was assessed at \$12,000 per mile, the Fort Smith and Western and the El Reno and Western at \$17,000 for main track and \$3,000 for sidings per mile; the Missouri, Oklahoma and Gulf was increased 5 per cent over last year and assessed \$3,000 per mile for sidings. The Oklahoma Central, the Fort Smith and Poteau and Western and the Missouri and Louisiana companies are accepted as returned by them to the board.

The Barnes Oil Company was increased to \$30,000 total valuation, the Bartlesville Oil and Gas Company to \$90,000, the Duquesne Oil and Gas Company to \$50,000 and the Minnetonka Oil Company to \$22,400. The board will meet Monday to equalize the valuations as returned by counties. It is indicated all classes of property other than public service holdings will be increased about 20 per cent over last year.

RESCUE WORKER HERE.

Solicits Funds for The Aid of The Home.

Mrs. A. H. Tannehill, vice-president of the Holmes Home of Redeeming Love, a rescue home for outcast girls and young women, located at Guthrie, was in the city yesterday and today soliciting funds for the home. They are preparing to move from Guthrie to Oklahoma City, where land has been purchased and buildings adequate to the demand are being erected. This institution is one which is much needed and which is worthy of your support.

The Holmes Home of Redeeming Love has purchased a downtown receiving home, which is always open. Every appeal from any class of unfortunate, girls will be heard, and none ever turned away. If she has made her first mis-step, or if betrayed through her trust in some rascally promise of marriage, or deep in sin in the brothel or out, sick, forsaken, enslaved by liquor or drug, or in any condition of degradation the Home of Redeeming Love holds outstretched arms of succor, and a card to the Superintendent of the Holmes Home of Redeeming Love, Oklahoma, City, will bring assistance to any girl in the new state.

BOARD AWARDS TWO CONTRACTS
Agricultural Department Governing Body Says no Conflict With Board of Public Affairs.

Guthrie, Okla., June 19.—Declaring there was no conflict between it and the Board of Public Affairs, the State Board of Agriculture awarded contracts for new buildings for the Connors and Murray District Agricultural Schools at Warner and Tishomingo, to the McKay Construction Company of Muskogee. The awards aggregate \$37,412. The board, after two day's session and transacting much business, announced that it would not take up the county demonstration farm work, authorized under the Russell act of the last legislature, until January. In awarding the contracts the board says it is acting within its constitutional rights.

Muskogee Town Lot Cases.

Guthrie, Okla., June 19.—District Attorney Gregg is awaiting permission from the Department of Justice at Washington to delay receiving the proposed motion to squash the Muskogee town lot indictments until the 1st day of the September term at McAlester. Attorneys Gov. Haskell and others gave notice of such filing, but it is understood that Judge Marshall of Salt Lake, assigned to the case by the Washington Government, desires to go abroad, to return in September. If this is followed arguments will be heard in Ardmore during the October term. If permission is denied to follow the plans the attorneys agreed upon in McAlester last night, the defense will file its motion the first term in the day in July, and, it is indicated, insist upon it being heard the following rule day, or the first Monday in August. Defendants expect their motion to quash to be sustained.

SCHOOL LAND IMPROVEMENTS.

Commissioners After Conference With Leassee Adopt Schedule of Allowances for Expenditures.

Guthrie, Okla., June 19.—For adjusting protests against the State's 1908 appraisal of school land and improvements, which may be made by lessees, the Board of Land Commissioners, after conference with the lessees' association, has adopted a schedule and classification. The State will name an adjuster who will act with an advisory board of two in putting a price upon improvements, and as rapidly as the adjustments are made upon school land ordered sold by the Legislature, those areas will be placed on the market. The following, which are practically the same as adopted by the Board last year for guidance of the appraisers, was adopted:

1. For the breaking of prairie land and preparing the same for cultivation—the minimum of \$2 and the maximum of \$4 will be allowed.

2. For preparing grub and stony lands in a fit state of cultivation—not more than \$20 per acre.

3. Fencing. The present cost of material and labor less 3 per cent per year for deterioration.

4. Buildings and improvements. Present cost of labor and material less 4 percent per year for deterioration.

5. Wind mills, pumps, tanks. Present cost less 5 per cent for deterioration per year after the first year.

6. Drainage and irrigation, ditches and artificial ponds, which are still in useful condition—actual cost of construction.

7. Cistern, cellar, cave and storm houses, including improved springs—actual cost of production, if still in useful condition.

8. Wells—cost of procuring water upon the tract of land.

9. Fruit and ornamental trees, alfalfa and tame grasses, shrubs and small fruits—at a fair and reasonable value when used in connection with the land.

News From The Capital

Cabinet Vetoes "More Daylight" Plan

WASHINGTON.—Father Time has scored another victory. President Taft and his cabinet, after mature deliberation, have decided not to encroach upon his prerogative or question his right to run the clocks of the government. Whatever distress may have been caused the old man by the suggestion that the government could regulate its clocks and run them without regard to the rising and setting of the sun was removed the other day when the cabinet formally decided that it would not attempt to interfere with the well established routine of affairs.

The federal clocks will continue to tick out standard time and Father Time, with absolute confidence, can depend upon their accuracy.

The federal employee will not be required to set his alarm clock to commence work with the rising of the sun, nor will he be free to gambol on the green during the hours of early afternoon. His allotted toll will be performed during office hours which have long been established.

While it was generally admitted by

the president and his advisers that the welfare of the clerks and the business interests of the government could be promoted so far as the volume of work was concerned, by regulating the hours of labor according to the rising of the sun, it was found that the plans which have been advanced by organized movements in Cincinnati and other western cities and are to receive parliamentary consideration in England are not feasible short of a revolution which would disturb banking and commercial conditions generally and be widespread in its effect upon the railroads.

Advantages to be derived by permitting government clerks all over the country to commence work in the cool hours of early morning during the summer season and discontinue labors in the early afternoon, with ample opportunity to enjoy the sunlight in daily afternoon vacations, appealed to the president. However, in view of the fact that the government could not compel financial and commercial houses to adjust themselves to the proposed change, and the further consideration that the business of the post office department would be vitally affected, entailing a change of schedules upon all railroads, caused the administration to decide not to attempt to encroach upon the prerogatives of Father Time and for the present at least there will be no change in the daily routine of the government clerks.

Job for Widow to Atone for Injustice

TO try to atone for injustice done to her husband by the United States, President Taft has ordered the appointment of Mrs. Nina L. Carrington to a position in the civil service without an examination.

Mrs. Carrington is the widow of the late Maj. Frank del Carrington, at one time an officer in the Twenty-first United States Infantry. Maj. Carrington was convicted by a civil court in the Philippines on a charge of misappropriation of funds. He was sentenced under the Spanish code to penal servitude for a term of 30 years.

This sentence was nullified by a decision of the United States supreme court, and Maj. Carrington was released after he had served several months. He lived for some time in Manila after his release. At his

death he was survived by a widow and two daughters.

Maj. Carrington came under the jurisdiction of the insular courts as a result of his transfer for temporary duty from the Twenty-first Infantry to the command of a battalion of Filipino scouts. He commanded this battalion at the time it was brought to St. Louis in 1903, to take part in the exposition.

The charges against him were based on financial operations which took place at that time. Many of his brother officers insisted that the difficulties in which he became involved were the result of carelessness rather than criminal intent. The evidence against him, however, was sufficient to cause his court-martial and consequent dismissal from the army. His conviction by the courts of the islands was followed by imprisonment in Bilibid prison.

During his incarceration, Mrs. Carrington and her daughters, through the efforts of influential friends, secured positions in some of the government departments in Washington. The order issued by the president places the widow of the convicted officer in the classified service.

Gun Play of Legislator Wins a Post

HENRY H. DENHAM, the man who knows the difference between a pocket gun and a shoe-buttoner, has become an elevator conductor in the senate office building at Washington. He is a product of Kentucky, and one of Senator Bradley's most valued constituents. This is the first persimmon the senator has been able to postle from the tree, even with the longest kind of a pole, and it was handed right over to Mr. Denham. It is worth only \$1,200 a year, but that beats nothing all hollow.

Mr. Denham was a member of the Kentucky assembly from the counties

of Monroe and Metcalf. He was critically ill with pneumonia when the fight came to overthrow Gov. Beckham, the Democratic primary nominee for senator, and elect Mr. Bradley, and every day at noon Mr. Denham was carried over to the statehouse on a stretcher and voted for Mr. Bradley. The contest was still in full swing when Mr. Denham was able to be out. It had become the practice to arrange pairs, and but few members of the legislature attending the routine proceedings, all waiting for something definite to develop.

Capt. Longmeyer, sergeant-at-arms of the house, one day drew a gun, and made some observations regarding the iniquitous practice of pairing. Mr. Denham quietly but promptly pulled a weapon from his own pocket, and said:

"Capt. Longmeyer, whenever the firing begins, remember that I am paired with you."

Takes Active Part in Capital Affairs

MRS. JONATHAN P. DOLLIVER, wife of the senior senator from Iowa, whose recent attacks on the schedules of the Aldrich tariff bill in the interest of the "ultimate consumer" have caused more excitement than has the speech of any other senator, is, like her distinguished husband, well equipped mentally. She is a graduate of Wellesley college.

Before her marriage Mrs. Dolliver was Miss Louise Pearsons, and she held the chair of mathematics in Northwestern university at Evanston. She is a brilliant conversationalist, and the affairs which she gives at her home on Massachusetts avenue are regarded as treats by those fortunate enough to be invited.

Mrs. Dolliver cares little for the frivolities, but she entertains with the hospitality that is the secret of successful entertainment, and takes an

active part in the serious affairs of the capital city. She is a prominent member of the Daughters of the American Revolution and has represented the state of Iowa in the continental congresses at the annual Washington meeting for years.

Mrs. Dolliver is essentially a home-loving woman. She superintends the education of her children and studies the public questions of the hour so that she can keep in touch with the interests of her husband, whose speeches in the senate are always attended by overflowing galleries. Not the least interested spectator at these times is Mrs. Dolliver, who understands as much of the present schedules and of "maximums and minimums" as does any woman in Washington.

New Enterprise.

Sandy Pikes—Lady, kindly give me a dime? I'm saving up for a great enterprise.

Kind Lady—What are you saving up for now?

Sandy Pikes—Saving up to get \$10,000,000 together and then I'll telegraph to Mars.

SECRETARY OF STATE AS A GOLFER.

Photograph copyright by Clineinst, Washington, D. C.

Philander C. Knox, secretary of state, is an enthusiastic golfer, and on pleasant afternoons he may be often seen engaged in contests with the president or other prominent Washingtonians on the Chevy Chase golf course in the outskirts of the capital. The picture shows him in his golfing outfit ready to make a drive.

TORPEDO IS DEADLY

Destructive Engine of War Invented by Deserter.

Latter Is Prisoner on Governors Island, N. Y.—Missile Explodes Twice and Demolishes Everything It Hits.

New York.—Zaccheus Favor, former private in the Coast Artillery Corps, United States army, now serving a sentence of two years in Castle William on Governors Island for desertion, is about to apply for a patent for a death-dealing missile, which he and his friends in the prison, as well as a firm of New York lawyers, who have agreed to exploit it, declare to be the most destructive engine of warfare ever invented.

While refusing to give any technical details of his deadly device, Favor describes it in general as a flying electrical torpedo that explodes twice, once when it strikes the object against which it is fired, and a second time after it has entered the object that is to be destroyed.

Favor is about 23 years old, and said that he had been working on his double-action torpedo about four years. He admitted that he had enlisted in the army to learn all about torpedoes.

After he had gained what he considered a thorough knowledge of them he decided it was time to quit the army and sell his invention. He did quit, but the government caught him, and he was court-martialed and sentenced to Castle William.

When not mowing the lawns, grinding bones to make fertilizer, sweeping the walks or shoveling coal, Favor says, he has spent all of his spare time perfecting his invention. A few days ago he turned over the plans and specifications to his New York lawyers, who will immediately apply to the patent office in Washington for a patent.

If that is granted the lawyers will look around for some government to which to sell the secret of the invention.

The imprisoned inventor said the other day that he had been indirectly approached by a foreign government but that he had declined to enter into negotiations for the present.

"Though I am a prisoner sent here by the government of my country, I am still patriotic enough to want my native land to have the first chance at this torpedo," he said.

"What do you shoot the thing from?" Favor was asked.

"Ah," he answered, "there is the secret of the whole thing. It is shot from nothing at all. There are no tubes, such as are used in firing the Whiteheads.

"It is like a great electrical bird, and it soars through the air. It can be fired from anywhere, and is just as effective for land defense as for sending warships to the bottom of the sea.

"Speaking of warships, one well-placed projectile that can be fired from a distance of ten miles, if it strikes the ship, will send the ship and all the men in her to the bottom. This torpedo of mine is a double exploding affair. That is, it explodes first to effect an entrance into the ship or fortification, and once inside it goes off again to finish the job."

"Suppose you fired one of them at a regiment of soldiers, what would hap-

pen to the soldiers?" Favor was asked.

"It would kill every blessed one of 'em," answered Favor.

"Would anything be left for the second explosion?"

"No, that would just scatter about what was left," added the inventor.

"Suppose you set one off in the cellar of one of New York's big buildings, what would be the finish?"

"There would not be enough of that building left to fill a cigar box," responded the inventor proudly.

Favor said he would deal through his attorneys, pending his release from prison.

JUDGE QUITS, SWEEPS STREET

East St. Louis Magistrate Forced by Health to Resign Office and is Now Wielding Broom.

East St. Louis, Ill.—Forced by order of his physician, to resign his office of police magistrate and obtain employment where he could enjoy pure air and outdoor exercise, Judge Thomas Stanton has started to work as a street sweeper in East St. Louis.

As police magistrate Stanton received an average of \$300 per month. As street sweeper he receives \$1.50 per day.

Stanton was elected police magistrate of East St. Louis two years ago, after filling the unexpired term of Magistrate Patrick McKane. The time and attention he gave his office told on his health and he became a sufferer from stomach trouble. One year ago he was taken to the hospital, and for several weeks it was feared he would die.

Stanton sweeps the street from Broadway to Missouri avenue, on which is located the city hall, police headquarters, fire department, the justices' offices, among them being the office he occupied, a bank and several other large business houses.

Dog Pays Own License

Hidden Coins Brought Out When Time to Settle With Flint (Mich.) Authorities Comes.

Flint, Mich.—Max, a black-and-tan dog owned by Charles C. Fitzhugh, a local pharmacist, has come through with a dollar to pay his annual license and thus insure safety from the city dog catcher for another year. And Max earned all this money himself.

In the rear of the store where his owner works Max, who is a trick dog, has a box half filled with excelsior, in which he hides pennies and nickels earned by doing tricks. When a customer comes into the store the dog starts his repertory of stunts, plays dead, walks lame, says his prayers, "talks" to the best of his ability, walks erect on his front legs and then on his hind legs, sits up and does numerous other tricks for the entertainment of his visitors. The majority of the patrons of the store know the dog and always when he has finished his act he is given a penny or a five-cent piece, which he hides in his box.

The other day when the animal's owner decided that the license should be paid he sent the dog back to the box time after time until the canine had brought to him a dollar in pennies and nickels, and, placing the cash in

NORSE RECORD IN MINNESOTA.

Stone with Runic Inscription and Date 1362 Exhibited in Chicago—Is Well Preserved.

Chicago.—What the owner, Hjalmar Rued Holand of Ephraim, Wis., considers positive proof that Europeans discovered America more than a century before the landing of Columbus is furnished by a stone bearing an inscription in Runic characters and the date 1362. Mr. Holand is curator of the Sons of Norway Historical Archives, and the Runestone, so-called, which has been placed on exhibition in the rooms of the Chicago Historical society, was found in Douglas county, Minnesota. Copies of the inscription and photographs have been sent to the University of Christiania, where no valid criticism of its authenticity was offered. The inscription as translated reads as follows:

"Eight Goths and 22 Norwegians upon a voyage of discovery from Vinland westward.

"We had a camp by two skerries, one day's journey north from this stone. We were out fishing one day. When we returned we found ten men red with blood and dead. Ave Maria, save us from evil.

"We have ten men by the sea to look after our vessel, 41 days' journey from this island, year 1362."

The language, as explained by the translator, is that of early times in southern Sweden, and is not greatly different from the Norwegian language of the present time. The stone is in an excellent state of preservation, and most of the characters are perfect.

DEVICE PHOTOGRAPHS SOUND

Cleveland Scientist Says He Will Distinguish Between Voice and Instrument.

Cleveland, O.—Prof. Dayton C. Miller of the Case School of Applied Science here says he has discovered a means of photographing sound. By the use of his newly perfected device he believes it will be possible to distinguish in films the difference between the tones of a human voice and the tones of a musical instrument.

The nearest that scientists have come to reproducing sound waves heretofore has been to make them visible on smoked paper. Several photographs have been made on the regular print paper, but they have been small and imperfect. The invention of Prof. Miller directly photographs the sound waves, magnifying them 2,000 times and recording them on films.

In his investigation Prof. Miller has used a harmonic analyzer, an instrument made in Switzerland, which separates sound waves into their component parts, determining whether a certain photographed sound wave was made by a flute, a bell, a violin or other musical instrument.

It is his purpose to tabulate the results of his experiments for the use of other investigators, a labor that will require several years' time.

TO WED IN SUFFRAGETTE CAR.

Pair Will Show the World That "Equal Rights" Movement is Not Home Disturber.

Spokane, Wash.—"Beautiful, accomplished, vivacious and wealthy" is the description given of the bride-to-be, while "tall and handsome, rich, and as a consequence influential, brilliant and an ardent devotee of the cause" give an inkling of the reputed qualifications of the bridegroom, in the case of the pair to be married in the drawing-room of a parlor car attached to the special train in which the advocates of equal rights will journey across the state of Washington June 29.

"The names of the couple will remain a secret," Mrs. May Arkwright Hutton, head of the Spokane Suffrage club, said, "until it is time to show the world instead of alienating women from the fireside the suffrage movement tends toward the creation of home ties."

The suffragettes' train will have among its passengers Rev. Anna Shaw and Mrs. Carrie Chapman Catt, president of the International Woman suffrage alliance.

IS FOUR SCORE FIVE

Levi P. Morton Dean of Living Ex-Vice-Presidents.

Has Just Celebrated Eighty-Fifth Birthday, and is Still Hale and Hearty—Accumulated Fortune in Banking Business.

New York.—Still fresh and vigorous in mind and sound in body, Levi P. Morton, the oldest living vice-president of the United States, recently celebrated his eighty-fifth birthday anniversary. Besides Mr. Morton there are now living only three other men who have held the position of vice-president of the United States—Adlai E. Stevenson, Theodore Roosevelt and Charles W. Fairbanks. Not only is Mr. Morton by far the oldest among his surviving colleagues, but, with one exception, he has already attained a greater age than any other former vice-president. The only exception was John Adams, the first vice-president of the United States, who died in 1826 at the age of 90 years.

While Mr. Stevenson has reached the age of 74, the other two surviving colleagues of Mr. Morton are still comparatively young men, Mr. Roosevelt being 51, Mr. Fairbanks 57 years old. Of his predecessors who have joined the silent army only John Adams lived to be older than Mr. Morton is now. Thomas Jefferson died at the age of 82, Hannibal Hamlin at the age of 81 and Aaron Burr at the age of 80. The latter holds the record in one respect, however, among the deceased former vice-presidents; he survived the end of his term of office by 31 years, a longer period than shows the record of any other of the deceased former holders of that office. Mr. Morton will have to live until he is 100 years old to surpass Burr's record.

Levi P. Morton is a New Englander, and the descendant of a family of clergymen. His family was founded in

Levi P. Morton.

America by Rev. George Morton, one of the conspicuous members of the Pilgrim colony of England. He was the financial agent of the Pilgrims and raised and conserved the funds which fitted out the expedition on the Mayflower, although he was not a passenger on the initial voyage. He arrived in America in 1623. Levi P. Morton may have inherited his taste for finance from that treasurer of the Pilgrim band.

When at the age of 16 years he saw no hope of realizing his ambition to go to Dartmouth college, Levi P. Morton entered a country store at Enfield, Mass., where he worked until he has enough money to start a modest establishment of his own, at Hanover, N. H., in 1849, at the age of 25 he came to Boston and became a partner in a small dry goods house. Five years later he went to New York, where he joined a dry goods firm. He failed a few years before the civil war, but immediately started a banking business, appreciating that the rebellion would mean a great demand for financiers to handle the government loans. Mr. Morton founded the banking house of Morton, Bliss & Co. in New York, and Morton, Rose & Co. in London, and dealt largely in government bonds. Just before the close of the war, when he had accumulated a fortune, Mr. Morton gave a dinner to the creditors of his former dry goods firm. Every one found under his plate a check for the amount still owing him with interest.

Mr. Morton's first essay in politics was in 1878, when he was elected to congress from a New York district. He might have been president if his loyalty to the wishes of Senator Roscoe Conkling had not made him refuse the nomination for vice-president on the ticket headed by James A. Garfield in 1880. President Garfield made him minister to France in 1881, and Mr. Morton made a fine record. He was elected vice-president in 1883 on the ticket with President Harrison, but was not nominated with the president in 1892. In 1894 he was made governor of New York. Since his retirement from the governorship in 1896 Mr. Morton devoted himself to the direction of his large financial interests and to extensive travels abroad. While in this country he spends most of his time in New York or Washington.

Credit Given.

"You don't give Harold credit for the courage and business sense he possesses," said Miss Cumrox. "Yes I do," answered her father. "He has proved both by asking my permission to marry you."

FRENCH MARRIAGE THEORY DANGEROUS SAYS DOWD

UNIVERSITY PROFESSOR SAYS IT WOULD DESTROY SOCIETY.

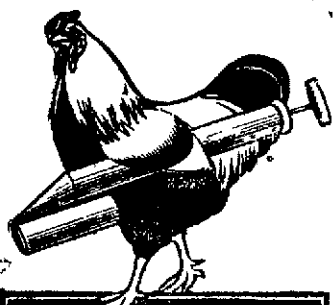

Does Not Believe in Mating as The Birds in Spring.

Norman Okla. June 19.—In the near future men and women will marry and separate whenever they choose and there will be no legal marriages but men and women will be held together by ethical rules. This is the opinion of R. J. Letourneau the eminent French sociologist. He declares that as a result men and women will have higher morals and will be better mated and there will be more liberty and equality. There will be no more illegitimate children and adultery will be wiped off the category of crime. The state will rear and educate the children.

Dr. Jerome Dowd, former professor of sociology in the Wisconsin University and of head of the economic and sociology department of the Oklahoma University says that Dr. Letourneau's plan would destroy civilization. The family is the integral part of our civilization he says "and the thing that makes women so idealized is the rearing of children. The family is necessary for the child. More criminals and prostitutes come from establishments maintained by the state than from the home. If we were to follow Dr. Letourneau's scheme none but the rich could own children and the race would become extinct after while."

Court Reconvenes.

District court reconvened this morning with Judge Robert M. Rahney on the bench. The civil docket was taken up the court having decided to rest the criminal business for this term.

RACE SUICIDE NOT FASHIONABLE IN OKLAHOMA

MONTH OF APRIL A RECORD BREAKER IN MATTER OF BIRTHS.

Over Five Human Beings Per Hour Was Ushered Into Existence.

Guthrie Okla. June 19.—Births in Oklahoma for the month of April averaged over five an hour according to State Health Officer Mahrs. June report just issued. The number of births was 3,848 with eleven counties not reporting and the number of deaths was 1,198 leaving a net increase in births 2,650 or a net average for the month of nearly four each hour. The gross figures show that 94% of the births were males and 929 females, 1,870 white and 54 black. Of the deaths 322 were males, 277 females, 553 white and 46 black.

Adair and Nowata Counties report births but no deaths. Pittsburg County lead in births reporting 244 next being Pottawatomie County with 236. Oklahoma County 178. Grady County 160.

The report also shows a decided improvement in Oklahoma health conditions and a reduction of the mortality in contagious and infectious diseases. Pneumonia led in diseases for the month and shows the greatest percentage of cases lost. Of 382 cases of pneumonia 142 were fatal. Smallpox exhibits the most favorable record as of the 263 cases reported none were fatal. Scarlet fever records three deaths out of 104 cases. Tuberculosis nearly 50 per cent loss as of the 103 cases recorded 48 patients died. Typhoid 6 out of 26 died. Diphtheria only 4 died out of 33.

The department has inaugurated war upon the house fly and urges the people to use house screens saving in the bulletin.

There is no doubt that insect are disease conveyers and that some of the germs find their way into the food and the water supplies. They live and breed in all kinds of filth, infect food and drink with germs. In fact each female lays 50 eggs and the only way to protect against them is to keep them out. The number of deaths from typhoid fever and intestinal diseases increased and declined with the fly during the season. In New York City 650 deaths from typhoid and 7,000 from intestinal diseases have been traced to the house fly. The most useful device known in the last quarter of a century is the common window and door screen. Put up screens.

The bulletin refers to the so-called nine foot sheet law of Oklahoma which has for its purpose a rigid inspection of hotels and boarding houses to the end that they keep sanitary which has been the subject of much ridicule and a source of amusement of the surrounding states. It is some in the fact but the law following is of Oklahoma.

LARGEST CONTRACT EVER OPENED IN OKLAHOMA

BIDS TO MAKE BIG IMPROVEMENTS AT FORT SILL.

Fourteen Firms From Various Cities in United States Seek to Work for Federal Government.

Fort Sill Okla. June 18.—Bids were opened at Fort Sill by Construction Quartermaster Stone June 10 for the construction of improvements amounting to more than \$700,000 for the erection of fifty-two new buildings exclusively of a central heating plant to be opened later.

Fifteen bids were submitted ranging in price from the \$700,000 offered by Lyster & Lowe of Dayton Ohio to nearly a million. This is the largest contract for buildings ever opened in Oklahoma.

The bidders were Texas Building Co. Fort Worth, Fred Terry Leavenworth Kan., J. T. Eaton & Son Junction City Kan., Thos. Jones & Son Leavenworth Kan., H. C. Settle Co. St. Louis Mo., W. G. Felled Leavenworth Kan., T. A. Seiminger St. Louis Mo., L. Crosby & Son Kansas City Mo., J. G. Barnes Leavenworth Kan., Mosier & Sumner Buffalo N. Y., Lyster & Lowe Dayton Ohio, Waters & Wess Apache I. B. Bates Topeka Kan., Ziegler Bros. Junction City Kan.

These improvements are only the beginning of a series that will cost several million dollars making Fort Sill the largest and most complete military post in the United States.

Very little money has been expended at Fort Sill. The fort was built originally by soldiers labor and the total amount of appropriations within the past twenty-five years for permanent improvements would not aggregate \$50,000.

The buildings to be constructed are as follows: One Colonel's quarters, two field officers' quarters, seven double officers' quarters, three four set officers' quarters, six field artillery barracks, one band barrack, four double sets, A. C. O. quarters, one administration building, one post exchange, two storehouses, one bakery, six livery stables, one band station, one G. M. stable, three double stable guard and shop buildings, six gun sheds, two hay sheds, one granary, one coal shed, one wagon shed, one pump house.

TEN ARE INDICTED ON NIGHT RIDER CHARGE

EXCITEMENT PREVAILS IN THE NEIGHBORHOOD OF PUDBY.

Grand Jury Will Reconvene and Other Indictments May Follow.

Pencil Okla. June 19.—Indictments were returned by the grand jury today against Barney Hanks, Charles Barnes, W. A. Wallace, M. L. Spencer, Samuel Spencer, A. L. Bledsoe, Albert Bacon and Matt Hanks charging them with being members of a band of night riders that has infested the western half of McClain county during the last several months. Each of the defendants had previously been arrested on warrants issued by County Attorney Franklin. Two other indictments were returned in these cases but were not made public.

Considerable excitement prevails in the vicinity of Pudby, the little town near which the night rider predictions have been committed and a witness to the excitement said today that several families have moved from the county on account of the organization.

The grand jury will reconvene Monday and other indictments may be returned. It is probable that several of the cases will be tried during the coming term of district court.

Look! Look! Look!

The cheapest property in the city corner of 18th and Johnston two acres less street and Alley, one 8 roomed house plastered throughout, barn, chicken house, well, windmill, over ground tank, fruit trees and berries, one block west of southside High school. This property can be bought for \$2500 if taken the next 30 days \$1500 on time. The Nettles Real Estate Co. 60-41

TOURNAMENT RACE JULY 5TH

One of the interesting attractions of the fourth of July celebration will be a tournament race in which any one who wishes may enter.

The following rules will be observed: Rule one All riders in this contest will be on the grounds at 3:00 o'clock p. m. on July 5th.

Rule two When there is a tie for any one prize the riders making the tie whether two or more shall ride the tie off and the one holding the greatest number of rings shall be the winner of the contested prize and the losers of this tie race shall not have any right to any other prize offered in this race.

Rule three No rings will be allowed other than those brought to the Judge on the ones and accounted for by him.

The time that the race must be made in will be decided after some practice and an average time of horses can be had.

The time keeper and the Judge will be elected on the grounds soon before the races begin by the riders.

First prize 21 jewel Waltham watch valued at \$3.00. In event of a tie second best man will be awarded a \$2.50 pair spurs by R. E. Hay 148.

Second prize \$10.00 in gold. In event of the second best man one box of silk hose \$2.50. Other prizes \$3.00 pair shoes by Katz & Rosenfeld \$3.00 pair shoes by S. E. Chapman \$5.00 Stetson hat by Texas Department Store \$6.00 Kodak by G. M. Ramsey \$5.00 Merchants Pipe by Gwin & Mays Co. \$5.00 pair of clothes brushes by F. L. Holley \$5.00 handle by H. C. Evans \$5.00 vest by H. Harris \$5.00 pair pants by C. C. Nash \$3.00 gold stick pin by Harry Sprague \$3.00 China Plate by S. M. Shaw \$3.00 of bran and sack of chops by Semple Feed & Produce Co. 100 cigars by Madox Drug Co. 50 cigars by Tobin & Coffman. Other premiums may be offered. Get in on this and be game.

TAFT WILL STAY IN WASHINGTON

NOT TO LEAVE CAPITAL UNTIL FURTHER DISCUSSION IS ENDED.

If Congress Convenes Until Late This Will Be Impossible.

Washington June 19.—President Taft has given up the notion that he will be able to leave Washington for the summer on July 3. Accordingly it was announced at White House today that on that date the president will take Mrs. Taft and the children to Beverly Mass. and then after filing several engagements that he has made return to Washington and tick it out alone at the White House until Congress gets ready to quit.

Mrs. Taft's health is improving so that the president may be able to make his contemplated western trip if Congress adjourns in time to give him a rest before starting on such a long journey.

But if the president is kept in Washington till late in the summer as now appears probable he will not be disposed to leave for the west without getting a much needed rest. Under the circumstances the western trip begins to look less probable than it did some time ago.

NOTION IN SEPTEMBER.

Federal Attorney and Governor's Counsel Reach an Agreement.

McAlester Okla. June 19.—As the result of a conference between United States District Attorney Giege and Judge C. B. Stuart, leading counsel for Governor Haskell, the motions and answers in the Muskogee town lot cases will be filed September 1 but in case the judge is not to be in the state after August 1 they may by later agreement be filed on that date but as the date now stands nothing will be done in the matter until September.

In the federal court today two minor cases were disposed of the grand jury returning two sealed indictments and court adjourned to Monday morning.

ADA IS AT PRESENT INVESTING several hundred thousand dollars in water works extension, sewerage construction, city hall erection, gas development, state normal college and what not.

MEN OR YOUNG MEN Who Put Their confidence in us in this matter of clothes are entitled to know the truth about what they buy here; and we're glad to have them know it, there's nothing here that we're afraid to tell the truth about.

Hart Schaffner & Marx clothes are all-wool and all-wool is the only real full value in clothes. We have some clothes that are not all-wool well tell you so if you select any of them. We don't advise you to buy cotton-mixed goods they're mostly disappointing, and that's bad for us as well as you. We have them here to sell to men or the young men who are not yet wise enough to insist on all-wool.

We'll try to persuade you to buy Hart Schaffner & Marx all-wool clothes that were

18.50 to 25.00

but just now we are having cut prices in all our high price suits. They will cost you now much less than before.

We Carry All Kinds of Underwear.

Sleeves long or short. Drawers in knee lengths and full lengths 25c and 50c.

gress of March 3, 1879.

TWO CAPTURED AT PROCTOR.

Men Taken Into Custody Following
Attempt to Hold Up and Rob
Crew of Train.

Muskogee, Okla., June 19.—After
trailing two robbers, who attempted
to rob a freight train at Braggs, and
in a pitched battle shot and killed
Deputy Constable Kirk and wounded
Constable Wicks yesterday morning,
Deputy Sheriff W. H. Clarks of
Braggs and Willie Bryan, a full-blood
Cherokee, captured two men this
afternoon at Proctor, Okla., sixty-

five miles north of the scene of the
robbery. The men gave their names
as Fred Donaldson of Florida and
Fred Wright of Washington.

The men were fatigued and hun-
gry and surrendered without show-
ing fight.

Deputy Clark said that he follow-
ed the trail on horseback until they
struck the dense timber in the Cher-
okee wilds, and then Bryan, who
has a reputation for being very ex-
pert on the trail, followed them on
foot.

When they reached the Frisco road
they secured a hand car from a
gang of section men and pumped
their way to Proctor. At this place
they learned two men had just left
the town. Securing two additional
officers, Clark started on the trail.
He saw a camp beside the railroad,
and sent two of his men to surround
the campers.

Seeing they were surrounded, the
men threw up their hands. They
were unarmed.

Neither of the men will make a
statement except that the two men
captured this afternoon are not gult-
ty. The men were brought here late
this afternoon and are confined in
jail under a heavy guard.

A Correction.

In Saturday's issue of the News the
statement appeared that Mr. T. B.
Liner had secured the position as
pekinship teacher in the State
Normal. It should have read the
County Normal.

Boring Well for Oil.

Guthrie, Okla., June 19.—With the
belief that Woods County is resting
over oil and gas, people are boring
near Alva, according to Harry A.
Noah, an attorney at that place.

"We are now down 1,700 feet and
expect to go to 3,000," said Mr. Noah,
"and at least find out just what the
indications are below us. So far we
have found no limestone, so prevail-
ent in Oklahoma east of the Arkan-
sas River, the Woods County forma-
tions being chiefly shale. There is
one strata about five feet thick of
what geologist call shell rock, and
the general character bears out the
theory that Oklahoma was at one
time under water."

Mr. Noah, as well as others, be-
lieves that practically all of Okla-
homa is oil and gas territory.

Beware of Ointments for Catarrh

that Contain Mercury,
as mercury will surely destroy the
sense of smell and completely de-
range the whole system when enter-
ing it through the mucous surfaces.
Such articles should never be used
except on prescriptions from reput-
able physicians, as the damage they
will do is ten fold to the good you
can possibly derive from them. Hall's
Catarrh Cure, manufactured by F. J.
Cheney & Co., Toledo O., contains no
mercury, and is taken internally, act-
ing directly upon the blood and muc-
ous surfaces of the system. In buying
Hall's Catarrh Cure be sure you get
the genuine. It is taken internally
and made in Toledo, Ohio, by F. J.
Cheney & Co. Testimonials free.

Sold by Druggists. Price 75c per
bottle.

JIM CROW CASES DISMISSED.

Complaints Against All Roads but One Are Withdrawn From Corporation Commission.

Guthrie Okla. June 19—Cases against Oklahoma railroads filed with the Corporation Commission by S. Douglas Russell of Langston and Dr. W. H. Gernagin of Oklahoma City, both negroes for better Jim Crow accommodations were dismissed today save as to the F. S. & W. which were continued for the term.

Among other things, the negroes ask for sleeping cars and first and second class day coach accommodations.

Cases against the Midland Valley and the Katy were dismissed by the complainants agreeing the service was sufficient and in the cases against the Frisco R. I. and Santa Fe the roads agreed by January 1 through those sections of the State where negro travel is substantial to haul Jim Crow cars first and second class with conveniences for the sexes in each. There is no agreement as to sleeping car accommodations. Action was brought under the Constitution that requires the facilities of the roads to be equal.

Oklahoma Board of Education Ratifies Assessments of Several Roads in New State.

Guthrie Okla. June 19—The State Board of Equalization has ratified the 5 per cent increase over last year in the assessments on the main track including branches of the Atchafalaya, Topeka and Santa Fe, the Gulf Colorado and Santa Fe the Wichita Falls and Northwestern the Kansas and Arkansas Valley, (Frisco) the Frisco System the Colorado Texas and Mexican, the Midland Valley the Kansas City Southern the Arkansas Western and the Missouri Kansas and Texas Sidetrack and buildings will be finally passed upon next week. The Kansas City Mexico and Orient was assessed at \$12,000 per mile the Fort Smith and Western and the El Reno and Western at \$17,000 for main track and \$3,000 for sidings per mile the Missouri Oklahoma and Gulf was increased 5 per cent over last year and assessed \$3,000 per mile for sidings. The Oklahoma Central the Fort Smith and Poteau and Western and the Missouri and Louisiana companies are accepted as returned by them to the board.

The Barnes Oil Company was increased to \$30,000 total valuation the Bartlesville Oil and Gas Company to \$80,000 the Duquesne Oil and Gas Company to \$50,000 and the Minnetonka Oil Company to \$22,400. The board will meet Monday to equalize the valuations as returned by counties. It is indicated all classes of property other than public service holdings will be increased about 20 per cent over last year.

RESCUE WORKER HERE.

Solicits Funds for The Aid of The Home.

Mrs. A. H. Tannehill vice-president of the Holmes Home of Redeeming Love a rescue home for outcast girls and young women located at Guthrie was in the city yesterday and today soliciting funds for the home. They are preparing to move from Guthrie to Oklahoma City where land has been purchased and buildings adequate to the demand are being erected. This institution is one which is much needed and which is worthy of your support.

The Holmes Home of Redeeming Love has purchased a downtown receiving home which is always open. Every appeal from any class of unfortunate, girls will be heard and none ever turned away. If she has made her first mis-step or if betrayed through her trust in some rascally promise of marriage or deep in sin in the brothel or out sick forsaken enslaved by liquor or drug or in any condition of degradation the Home of Redeeming Love holds outstretched arms of succor and a card to the Superintendent of the Holmes Home of Redeeming Love Oklahoma City will bring assistance to any girl in the new state.

BOARD AWARDS TWO CONTRACTS

Agricultural Department Governing Body Says no Conflict With Board of Public Affairs.

Guthrie Okla. June 19—Declaring there was no conflict between it and the Board of Public Affairs the State Board of Agriculture awarded contracts for new buildings for the Connors and Murray District Agricultural Schools at Warner and Tishomingo to the McKay Construction Company of Muskogee. The awards aggregate \$37,412. The board after two days session and transacting much business announced that it would not take up the county demonstration farm work authorized under the Russell act of the last legislature until January. In awarding the contracts the board says it is acting within its constitutional rights.

Muskogee Town Lot Cases.

Guthrie Okla. June 19—District Attorney Gregg is awaiting permission from the Department of Justice at Washington to delay receiving the proposed motion to squash the Muskogee town lot indictments until the 1st day of the September term at McAlester. (Attorneys Gov. Haskell and others gave notice of such filing but it is understood that Judge Marshall of Salt Lake assigned to the case by the Washington Government desires to go abroad to return in September. If this is followed arguments will be heard in Ardmore during the October term. If permission is denied to follow the plans the attorneys agreed upon in McAlester last night the defense will file its motion the first term in the day in July and it is indicated insist upon it being heard the following rule day or the first Monday in August. Defendants expect their motion to quash to be sustained.

SCHOOL LAND IMPROVEMENTS.

Commissioners After Conference With Lessees Adopt Schedule of Allowances for Expenditures.

Guthrie Okla. June 19—For adjusting protests against the State's 1906 appraisal of school land and improvements which may be made by lessees the Board of Land Commissioners after conference with the lessees' association has adopted a schedule and classification. The State will name an adjuster who will act with an advisory board of two in putting a price upon improvements and as rapidly as the adjustments are made upon school land ordered sold by the Legislature those areas will be placed on the market. The following which are practically the same as adopted by the Board last year for guidance of the appraisers was adopted:

- 1 For the breaking of prairie land and preparing the same for cultivation—the minimum of \$2 and the maximum of \$4 will be allowed
- 2 For preparing grub and stony lands in a fit state of cultivation—not more than \$20 per acre
- 3 Fencing The present cost of material and labor less 3 per cent per year for deterioration
- 4 Buildings and appurtenances. Present cost of labor and material less 4 percent per year for deterioration
- 5 Wind mill pumps tanks Present cost less 5 per cent for deterioration per year after the first year.
- 6 Drainage and irrigation ditches and artificial ponds which are still in useful condition—actual cost of construction
- 7 Cistern cellar cave and storm houses including improved springs—actual cost of production if still in useful condition
- 8 Wells—cost of procuring water upon the tract of land
- 9 Fruit and ornamental trees alfalfa and tame grasses shrubs and small fruits—at a fair and reasonable value when used in connection with the land

News From The Capital

Cabinet Vetoes "More Daylight" Plan

WASHINGTON.—Father Time has scored another victory. President Taft and his cabinet, after mature deliberation, have decided not to encroach upon his prerogatives or question his right to run the clocks of the government. Whatever distress may have been caused the old man by the suggestion that the government could regulate its clocks and run them without regard to the rising and setting of the sun was removed the other day when the cabinet formally decided that it would not attempt to interfere with the well established routine of affairs.

The federal clocks will continue to tick out standard time and Father Time, with absolute confidence, can depend upon their accuracy.

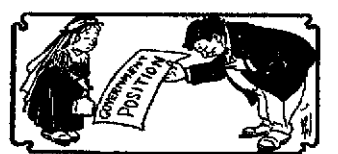

The federal employes will not be required to set his alarm clock to commence work with the rising of the sun, nor will he be free to gambol on the green during the hours of early afternoon. His allotted toll will be performed during office hours which have long been established.

While it was generally admitted by

the president and his advisers that the welfare of the clerks and the business interests of the government could be promoted so far as the volume of work was concerned, by regulating the hours of labor according to the rising of the sun, it was found that the plans which have been advanced by organized movements in Cincinnati and other western cities and are to receive parliamentary consideration in England are not feasible short of a revolution which would disturb banking and commercial conditions generally and be widespread in its effect upon the railroads.

Advantages to be derived by permitting government clerks all over the country to commence work in the cool hours of early morning during the summer season and discontinue labors in the early afternoon, with ample opportunity to enjoy the sunlight in daily afternoon vacations, appealed to the president. However, in view of the fact that the government could not compel financial and commercial houses to adjust themselves to the proposed change, and the further consideration that the business of the post office department would be vitally affected, entailing a change of schedules upon all railroads, caused the administration to decide not to attempt to encroach upon the prerogatives of Father Time and for the present at least there will be no change in the daily routine of the government clerks.

Job for Widow to Atone for Injustice

TO try to atone for injustice done to her husband by the United States, President Taft has ordered the appointment of Mrs. Nina L. Carrington to a position in the civil service without an examination.

Mrs. Carrington is the widow of the late Maj. Frank del Carrington, at one time an officer in the Twenty-first United States Infantry. Maj. Carrington was convicted by a civil court in the Philippines on a charge of misappropriation of funds. He was sentenced under the Spanish code to penal servitude for a term of 60 years.

This sentence was nullified by a decision of the United States supreme court, and Maj. Carrington was released after he had served several months. He lived for some time in Manila after his release. At his

death he was survived by a widow and two daughters.

Maj. Carrington came under the jurisdiction of the insular courts as a result of his transfer for temporary duty from the Twenty-first Infantry to the command of a battalion of Philippine scouts. He commanded this battalion at the time it was brought to St. Louis in 1903, to take part in the exposition.

The charges against him were based on financial operations which took place at that time. Many of his brother officers insisted that the difficulties in which he became involved were the result of carelessness rather than criminal intent. The evidence against him, however, was sufficient to cause his court-martial and consequent dismissal from the army. His conviction by the courts of the islands was followed by imprisonment in Bilalid prison.

During his incarceration, Mrs. Carrington and her daughters, through the efforts of influential friends, secured positions in some of the government departments in Washington. The order issued by the president places the widow of the convicted officer in the classified service.

Gun Play of Legislator Wins a Post

HENRY H. DENHAM, the man who knows the difference between a pocket gun and a shoe-buttoner, has become an elevator conductor in the senate office building at Washington. He is a product of Kentucky, and one of Senator Bradley's most valued constituents. This is the first permission the senator has been able to postle from the tree, even with the longest kind of a pole, and it was handed right over to Mr. Denham. It is worth only \$1,200 a year, but that beats nothing all hollow.

Mr. Denham was a member of the Kentucky assembly from the counties

of Monroe and Metcalf. He was critically ill with pneumonia when the fight came to overthrow Gov. Beckham, the Democratic primary nominee for senator, and elect Mr. Bradley, and every day at noon Mr. Denham was carried over to the state-house on a stretcher and voted for Mr. Bradley. The contest was still in full swing when Mr. Denham was able to be out. It had become the practice to arrange pairs, and but few members of the legislature attending the routine proceedings, all waiting for something definite to develop.

Capt. Longmeyer, sergeant-at-arms of the house, one day drew a gun, and made some observations regarding the iniquitous practice of pairing. Mr. Denham quietly but promptly pulled a weapon from his own pocket, and said:

"Capt. Longmeyer, whenever the firing begins, remember that I am paired with you."

Takes Active Part in Capital Affairs

MRS. JONATHAN P. DOLLIVER, wife of the senior senator from Iowa, whose recent attacks on the schedules of the Aldrich tariff bill in the interest of the "ultimate consumer" have caused more excitement than has the speech of any other senator, is, like her distinguished husband, well equipped mentally. She is a graduate of Wellesley college.

Before her marriage Mrs. Dolliver was Miss Louise Pearsons, and she held the chair of mathematics in Northwestern university at Evanston. She is a brilliant conversationalist, and the affairs which she gives at her home on Massachusetts avenue are regarded as treats by those fortunate enough to be invited.

Mrs. Dolliver cares little for the frivolities, but she entertains with the hospitality that is the secret of successful entertainment, and takes an

active part in the serious affairs of the capital city. She is a prominent member of the Daughters of the American Revolution and has represented the state of Iowa in the continental congresses at the annual Washington meeting for years.

Mrs. Dolliver is essentially a home-loving woman. She superintends the education of her children and studies the public questions of the hour so that she can keep in touch with the interests of her husband, whose speeches in the senate are always attended by overflowing galleries. Not the least interested spectator at these times is Mrs. Dolliver, who understands as much of the present schedules and of "maximums and minimums" as does any woman in Washington.

New Enterprise.

SECRETARY OF STATE AS A GOLFER.

Philander C. Knox, secretary of state, is an enthusiastic golfer, and on pleasant afternoons he may be often seen engaged in contests with the president or other prominent Washingtonians on the Chevy Chase golf course in the outskirts of the capital. The picture shows him in his golfing outfit ready to make a drive.

TORPEDO IS DEADLY

Destructive Engine of War Invented by Deserter.

Latter Is Prisoner on Governors Island, N. Y.—Missile Explodes Twice and Demolishes Everything It Hits.

New York.—Zaccheus Favor, former private in the Coast Artillery Corps, United States army, now serving a sentence of two years in Castle William on Governors Island for desertion, is about to apply for a patent for a death-dealing missile, which he and his friends in the prison, as well as a firm of New York lawyers, who have agreed to exploit it, declare to be the most destructive engine of warfare ever invented.

While refusing to give any technical details of his deadly device, Favor describes it in general as a flying electrical torpedo that explodes twice, once when it strikes the object against which it is fired, and a second time after it has entered the object that is to be destroyed.

Favor is about 23 years old, and said that he had been working on his double-action torpedo about four years. He admitted that he had enlisted in the army to learn all about torpedoes.

After he had gained what he considered a thorough knowledge of them he decided it was time to quit the army and sell his invention. He did quit, but the government caught him, and he was court-martialed and sentenced to Castle William.

When not mowing the lawns, grinding bones to make fertilizer, sweeping the walks or shoveling coal, Favor says, he has spent all of his spare time perfecting his invention. A few days ago he turned over the plans and specifications to his New York lawyers, who will immediately apply to the patent office in Washington for a patent.

If that is granted the lawyers will look around for some government to which to sell the secret of the invention.

The imprisoned inventor said the other day that he had been indirectly approached by a foreign government but that he had declined to enter into negotiations for the present.

"Though I am a prisoner sent here by the government of my country, I am still patriotic enough to want my native land to have the first chance at this torpedo," he said.

"What do you shoot the thing from?" Favor was asked.

"Ah," he answered, "there is the secret of the whole thing. It is shot from nothing at all. There are no tubes, such as are used in firing the Whiteheads.

"It is like a great electrical bird, and it soars through the air. It can be fired from anywhere, and is just as effective for land defense as for sending warships to the bottom of the sea.

"Speaking of warships, one well-placed projectile that can be fired from a distance of ten miles, if it strikes the ship, will send the ship and all the men in her to the bottom. This torpedo of mine is a double exploding affair. That is, it explodes first to effect an entrance into the ship or fortification, and once inside it goes off again to finish the job."

"Suppose you fired one of them at a regiment of soldiers, what would hap-

pen to the soldiers?" Favor was asked.

"It would kill every blessed one of 'em," answered Favor.

"Would anything be left for the second explosion?"

"No, that would just scatter about what was left," added the inventor.

"Suppose you set one off in the cellar of one of New York's big buildings, what would be the finish?"

"There would not be enough of that building left to fill a cigar box," responded the inventor proudly.

Favor said he would deal through his attorneys, pending his release from prison.

JUDGE QUITS, SWEEPS STREET

East St. Louis Magistrate Forced by Health to Resign Office and is Now Sweeping Street.

East St. Louis, Ill.—Forced by order of his physician, to resign his office of police magistrate and obtain employment where he could enjoy pure air and outdoor exercise, Judge Thomas Stanton has started to work as a street sweeper in East St. Louis.

As police magistrate Stanton received an average of \$800 per month. As street sweeper he receives \$1.50 per day.

Stanton was elected police magistrate of East St. Louis two years ago, after filling the unexpired term of Magistrate Patrick McKane. The time and attention he gave his office told on his health and he became a sufferer from stomach trouble. One year ago he was taken to the hospital, and for several weeks it was feared he would die.

Stanton sweeps the street from Broadway to Missouri avenue, on which is located the city hall, police headquarters, fire department, the justices' offices, among them being the office he occupied, a bank and several other large business houses.

Dog Pays Own License

Hidden Coins Brought Out When Time to Settle With Flint (Mich.) Authorities Comes.

Flint, Mich.—Max, a black-and-tan dog owned by Charles C. Fitzhugh, a local pharmacist, has come through with a dollar to pay his annual license and thus insure safety from the city dog catcher for another year. And Max earned all this money himself.

In the rear of the store where his owner works Max, who is a trick dog, has a box half filled with excelsior, in which he hides pennies and nickels earned by doing tricks. When a customer comes into the store the dog starts his repertoire of stunts, plays dead, walks lame, says his prayers, "talks" to the best of his ability, walks erect on his front legs and then on his hind legs, sits up and does numerous other tricks for the entertainment of his visitors. The majority of the patrons of the store know the dog and always when he has finished his act he is given a penny or a five-cent piece, which he hides in his box.

The other day when the animal's owner decided that the license should be paid he sent the dog back to the box time after time until the canine had brought to him a dollar in pennies and nickels, and, placing the cash in

NORSE RECORD IN MINNESOTA.

Stone with Runic Inscription and Date 1362 Exhibited in Chicago—Is Well Preserved.

Chicago.—What the owner, Hjalmar Rued Holand of Ephraim, Wis., considers positive proof that Europeans discovered America more than a century before the landing of Columbus is furnished by a stone bearing an inscription in Runic characters and the date 1362. Mr. Holand is curator of the Sons of Norway Historical Archives, and the Runestone, so-called, which has been placed on exhibition in the rooms of the Chicago Historical society, was found in Douglas county, Minnesota. Copies of the inscription and photographs have been sent to the University of Christiania, where no valid criticism of its authenticity was offered. The inscription as translated reads as follows:

"Eight Goths and 22 Norwegians upon a voyage of discovery from Vinland westward.

"We had a camp by two skerries, one day's journey north from this stone. We were out fishing one day. When we returned we found ten men red with blood and dead. Ave Maria, save us from evil.

"We have ten men by the sea to look after our vessel, 41 days' journey from this island, year 1362."

The language, as explained by the translator, is that of early times in southern Sweden, and is not greatly different from the Norwegian language of the present time. The stone is in an excellent state of preservation, and most of the characters are perfect.

DEVICE PHOTOGRAPHS SOUND

Cleveland Scientist Says He Will Distinguish Between Voice and Instrument.

Cleveland, O.—Prof. Dayton C. Miller of the Case School of Applied Science here says he has discovered a means of photographing sound. By the use of his newly perfected device he believes it will be possible to distinguish in films the difference between the tones of a human voice and the tones of a musical instrument.

The nearest that scientists have come to reproducing sound waves heretofore has been to make them visible on smoked paper. Several photographs have been made on the regular print paper, but they have been small and imperfect. The invention of Prof. Miller directly photographs the sound waves, magnifying them 2,000 times and recording them on films.

In his investigation Prof. Miller has used a harmonic analyzer, an instrument made in Switzerland, which separates sound waves into their component parts, determining whether a certain photographed sound wave was made by a flute, a bell, a violin or other musical instrument.

It is his purpose to tabulate the results of his experiments for the use of other investigators, a labor that will require several years' time.

TO WED IN SUFFRAGETTE CAR.

Pair Will Show the World That "Equal Rights" Movement is Not Home Disturber.

Spokane, Wash.—"Beautiful, accomplished, vivacious and wealthy" is the description given of the bride-to-be, while "tall and handsome, rich, and as a consequence influential, brilliant and an ardent devotee of the cause" give an inkling of the reputed qualifications of the bridegroom, in the case of the pair to be married in the drawing-room of a parlor car attached to the special train in which the advocates of equal rights will journey across the state of Washington June 29.

"The names of the couple will remain a secret," Mrs. May Arkwright Hutton, head of the Spokane Suffrage club, said, "until it is time to show the world instead of alienating women from the fireside the suffrage movement tends toward the creation of home ties."

The suffragettes' train will have among its passengers Rev. Anna Shaw and Mrs. Carrie Chapman Catt, president of the International Woman suffrage alliance.

IS FOUR SCORE FIVE

Levi P. Morton Dean of Living Ex-Vice-Presidents.

Has Just Celebrated Eighty-Fifth Birthday, and is Still Hale and hearty—Accumulated Fortune in Banking Business.

New York.—Still fresh and vigorous in mind and sound in body, Levi P. Morton, the oldest living vice-president of the United States, recently celebrated his eighty-fifth birthday anniversary. Besides Mr. Morton there are now living only three other men who have held the position of vice-president of the United States—Adlai E. Stevenson, Theodore Roosevelt and Charles W. Fairbanks. Not only is Mr. Morton by far the oldest among his surviving colleagues, but, with one exception, he has already attained a greater age than any other former vice-president. The only exception was John Adams, the first vice-president of the United States, who died in 1826 at the age of 90 years.

While Mr. Stevenson has reached the age of 74, the other two surviving colleagues of Mr. Morton are still comparatively young men. Mr. Roosevelt being 51, Mr. Fairbanks 57 years old. Of his predecessors who have joined the silent army only John Adams lived to be older than Mr. Morton is now. Thomas Jefferson died at the age of 82, Hannibal Hamlin at the age of 81, and Aaron Burr at the age of 80. The latter holds the record in one respect, however, among the deceased former vice-presidents; he survived the end of his term of office by 31 years, a longer period than shows the record of any other of the deceased former holders of that office. Mr. Morton will have to live until he is 100 years old to surpass Burr's record.

Levi P. Morton is a New Englander, and the descendant of a family of clergymen. His family was founded in

Levi P. Morton.

America by Rev. George Morton, one of the conspicuous members of the Pilgrim colony of England. He was the financial agent of the Pilgrims and raised and conserved the funds which fitted out the expedition on the Mayflower, although he was not a passenger on the initial voyage. He arrived in America in 1623. Levi P. Morton may have inherited his taste for finance from that treasurer of the Pilgrim band.

When at the age of 16 years he saw no hope of realizing his ambition to go to Dartmouth college, Levi P. Morton entered a country store at Enfield, Mass., where he worked until he has enough money to start a modest establishment of his own, at Hanover, N. H., in 1849, at the age of 25 he came to Boston and became a partner in a small dry goods house. Five years later he went to New York, where he joined a dry goods firm. He failed a few years before the civil war, but immediately started a banking business, appreciating that the rebellion would mean a great demand for financiers to handle the government loans. Mr. Morton founded the banking house of Morton, Bliss & Co. in New York, and Morton, Rose & Co. in London, and dealt largely in government bonds. Just before the close of the war, when he had accumulated a fortune, Mr. Morton gave a dinner to the creditors of his former dry goods firm. Every one found under his plate a check for the amount still owing him with interest.

Mr. Morton's first essay in politics was in 1878, when he was elected to congress from a New York district. He might have been president if his loyalty to the wishes of Senator Roscoe Conkling had not made him refuse the nomination for vice-president on the ticket headed by James A. Garfield in 1880. President Garfield made him minister to France in 1881, and Mr. Morton made a fine record. He was elected vice-president in 1885 on the ticket with President Harrison, but was not nominated with the president in 1892. In 1894 he was made governor of New York. Since his retirement from the governorship in 1896 Mr. Morton devoted himself to the direction of his large financial interests and to extensive travels abroad. While in this country he spends most of his time in New York or Washington.

Credit Given.

"You don't give Harold credit for the courage and business sense he possesses," said Miss Cumrox. "Yes I do," answered her father. "He has proved both by asking my permission to marry you."

FRENCH MARRIAGE THEORY DANGEROUS SAYS DOWD

UNIVERSITY PROFESSOR SAYS IT WOULD DESTROY SOCIETY.

Does Not Believe in Mating as The Birds in Spring.

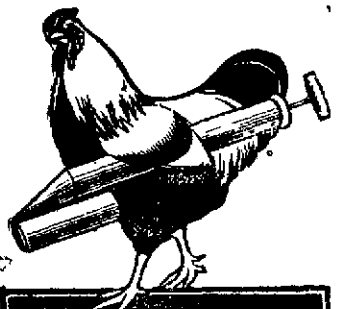

Norman Okla June 19—In the near future men and women will marry and separate whenever they choose and there will be no legal marriages but men and women will be held together by ethical rules.

This is the opinion of K. J. Letourneau the eminent French sociologist. He declares that as a result men and women will have higher morals and will be better mated and there will be more liberty and equality. There will be no more illegitimate children and adultery will be wiped off the category of crime. The state will rear and educate the children.

Dr. Jerome Dowd, former professor of sociology in the Wisconsin University and now head of the economic and sociology department of the Oklahoma University says that Dr. Letourneau's plan would destroy civilization. The family is the integral part of our civilization, he says, "and the thing that makes women so idealized is the rearing of children. The family is necessary for the child. More criminals and prostitutes come from establishments maintained by the state than from the homes. If we were to follow Dr. Letourneau's scheme none but the rich could own children and the race would become extinct after while."

Court Reconvenes.

District court reconvened this morning with Judge Robert M. Rahm on the bench. The civil docket was taken up, the court having decided to rest the criminal business for this term.

RACE SUICIDE NOT FASHIONABLE IN OKLAHOMA

MONTH OF APRIL A RECORD BREAKER IN MATTER OF BIRTHS.

Over Five Human Beings Per Hour Was Unshored Into Existence.

Guthrie Okla June 19—Births in Oklahoma for the month of April averaged over five an hour according to State Health Officer Mahrs. June report just issued the number of births was 3,848 with eleven counties not reporting and the number of deaths was 1,195 leaving a net increase in births 2,653 or a net average for the month of nearly four each hour. The gross figures show that 99 of the births were males and 929 females, 1,870 white and 54 black. Of the deaths 322 were males, 277 females, 553 white and 46 black.

Ada and Nowata Counties report births but no deaths. Pittsburg County lead in births reporting 244 next being Pottawatomie County with 235. Oklahoma County 178. Grady County 160.

The report also shows a decided improvement in Oklahoma health conditions and a reduction of the mortality in contagious and infectious diseases. Pneumonia led in diseases for the month and shows the greatest percentage of cases lost. Of 382 cases of pneumonia 152 were fatal. Smallpox exhibits the most favorable record as of the 263 cases reported none were fatal. Scarlet fever records three deaths out of 104 cases. Diphtheria nearly 50 per cent loss as of the 10 cases recorded 48 patients died. Syphilis 6 out of 26 died. Diphtheria only 4 died out of 33. The department has inaugurated war upon the house fly and urges the people to use house screens saving in the bulletin.

There is no doubt that insect-borne disease conveyers and that sort of the germs find their way into the food and the water supplies. They live and breed in all kinds of filth, insect food and drink with germ laden feces each female lays 50 eggs and the only way to protect against them is to keep them out. The number of deaths from typhoid fever and intestinal diseases increased and declined with the fly during the season. In New York City 650 deaths from typhoid and 7,000 from intestinal diseases have been traced to the humble insect. The most useful device known in the last quarter of a century is the common window and door screen. Put up screens.

The bulletin refers to the so-called nine foot shelf law of Oklahoma which has for its purpose the inspection of hotels and boarding houses to the end that they keep sanitary which has been the subject of much ridicule and a number of the men of the irascible class as well as some in the first line of the law following of Oklahoma.

LARGEST CONTRACT EVER OPENED IN OKLAHOMA

BIDS TO MAKE BIG IMPROVEMENTS AT FORT SILL.

Fourteen Firms From Various Cities In United States Seek to Work for Federal Government.

Fort Sill Okla June 18—Bids were opened at Fort Sill by Construction Quartermaster Stone June 10 for the construction of improvements amounting to more than \$700,000 for the erection of fifty-two new buildings exclusively of a central heating plant to be opened later.

Fifteen bids were submitted ranging in price from the \$700,000 offered by J. L. & L. & L. of Dayton Ohio to nearly a million. This is the largest contract for buildings ever opened in Oklahoma.

The bidders were Texas Building Co., Fort Worth; Fred Terry Leavenworth Kan.; J. T. Daton & Son, Junction City Kan.; Thos. Jones & Son, Leavenworth Kan.; H. C. Settle Co., St. Louis Mo.; W. G. Filled, Leavenworth Kan.; T. A. Seiminger, St. Louis Mo.; L. Crosby & Son, Kansas City Mo.; J. G. Barnes, Leavenworth Kan.; Voster & Sumner, Buffalo N. Y.; Lyster & Lowe, Dayton Ohio; Waters & Wynn, Apache I. B. Bates, Topeka Kan.; Ziegler Bros., Junction City Kan.

These improvements are only the beginning of a series that will cost several million dollars making Fort Sill the largest and most complete military post in the United States.

Very little money has been expended at Fort Sill. The fort was built originally by soldiers labor and the total amount of appropriations within the past twenty-five years for permanent improvements would not aggregate \$50,000.

The buildings to be constructed are as follows: One Colonel's quarters, two field officers' quarters, seven double officers' quarters, three four set officers' quarters, six field artillery barracks, one band barracks, four double sets, A. C. O. quarters, one ambulance building, one post exchange, two storehouses, one bakery, six livery stables, one band station, one G. M. stable, three double stable guard and shop buildings, six gun sheds, two hay sheds, one granary, one coal shed, one wagon shed, one pump house.

TEN ARE INDICTED ON NIGHT RIDER CHARGE

LACIEMEN PREVAILS IN THE NEIGHBORHOOD OF PUDY.

Grand Jury Will Reconvene and Other Indictments May Follow.

Purcell Okla June 19—Indictments were returned by the grand jury today against Barney Hanks, Charles Barnes, W. A. Wallace, M. L. Spencer, Samuel Spencer, A. L. Bledsoe, Albert Bacon and Matt Hanks charging them with being members of a band of night riders that has infested the western half of McClain county during the last several months. Each of the defendants had previously been arrested on warrants issued by County Attorney Franklin. Two other indictments were returned in these cases but were not made public.

Considerable excitement prevails in the vicinity of Pudy, the little town near which the night riders' depredations have been committed and a witness told today that several families have moved from the county on account of the organization.

The grand jury will reconvene Monday and other indictments may be returned. It is probable that several of the cases will be tried during the current term of district court.

Look! Look! Look!

The cheapest property in the city corner of 18th and Johnston two acres less street and alley, one 8 roomed house plastered throughout, barn, chicken house, well, windmill, over ground tank, fruit trees and berries, one block west of southside High school. This property can be bought for \$2500 if taken the next 30 days \$1,500 on time. The Nettles Real Estate Co. 60-11

TOURNAMENT RACE JULY 5TH

One of the interesting attractions of the fourth of July celebration will be a tournament race in which any one who wishes may enter.

The following rules will be observed: Rule one. All riders in this contest will be on the grounds at 3:00 o'clock p. m. on July 5th.

Rule two. When there is a tie for any prize the riders making the tie whether two or more shall ride the tie off and the one holding the greatest number of rings shall be the winner of the contested prize and the losers of this tie race shall not have any right to any other prize offered in this race.

Rule three. No rings will be allowed other than those brought to the Judge on the ones and accounted for by him.

The time that the race must be made in will be decided after some practice and an average time of horses can be had.

The time keeper and the Judge will be elected on the grounds soon before the races begin by the riders.

First prize 21 jewel Waltham watch valued at \$3.00. In event of a tie second best man will be awarded a \$2.00 pair spurs by R. E. Hayes.

Second prize \$10.00 in gold. In event of the second best man one box of silk hose \$2.50. Other prizes \$5.00 pair shoes by Katz & Rosenfield, \$1.00 pair shoes by S. E. Chapman, \$6.00 Stetson hat by Texas Department Store, \$6.00 Kodak by G. M. Ramsey, \$5.00 Merchman Pipe by Gwin & Mays Co., \$5.00 pair of clothes brushes by F. Z. Holley, \$5.00 bridle by H. C. Evans, \$5.00 vest by F. Harris, \$3.00 pair pants by C. C. Nash, \$3.00 gold stick pin by Harry Sprague, \$3.00 China Plate by S. M. Shaw, Sack of bran and sack of chops by Semple Feed & Produce Co., 100 cigars by Mad ox Drug Co., 50 cigars by Tobin & Coffman. Other premiums may be offered. Get in on this and be game.

TAFT WILL STAY IN WASHINGTON

NOT TO LEAVE CAPITAL UNTIL FURTHER DISCUSSION IS ENDED.

If Congress Convenes Until Late This Will Be Impossible.

Washington June 19—President Taft has given up the notion that he will be able to leave Washington for the summer on July 3. Accordingly it was announced at White House today that on that date the president will take Mrs. Taft and the children to Beverly Mass. and then after finishing several engagements that he has made return to Washington and tickle out alone at the White House until congress gets ready to quit.

Mrs. Taft's health is improving so that the president will be able to make his contemplated western trip of congress adjourns in time to give him a rest before starting on such a long journey.

But if the president is kept in Washington till late in the summer as now appears probable he will not be disposed to leave for the west without getting a much needed rest. Under the circumstances the western trip begins to look less probable than it did some time ago.

NOTION IN SEPTEMBER.

Federal Attorney and Governor's Counsel Reach an Agreement.

McAlester, Okla June 19—As the result of a conference between United States District Attorney Gregg and Judge C. B. Stuart, leading counsel for Governor Haskell, the motions and answers in the Muskogee town lot cases will be filed September 1 but in case the judge is not to be in the state after August 1 they may by later agreement be filed on that date but as the date now stands nothing will be done in the matter until September.

In the federal court today two minor cases were disposed of, the grand jury returning two sealed indictments and court adjourned to Monday morning.

MEN OR YOUNG MEN Who Put Their confidence in us in this matter of clothes are entitled to know the truth about what they buy here; and we're glad to have them know it, there's nothing here that we're afraid to tell the truth about.

Hart Schaffner & Marx clothes are all-wool and all-wool is the only real full value in clothes. We have some clothes that are not all-wool, well tell you so if you select any of them. We don't advise you to buy cotton-mixed goods they're mostly disappointing, and that's bad for us as well as you. We have them here to sell to men or the young men who are not yet wise enough to insist on all-wool.

We'll try to persuade you to buy Hart Schaffner & Marx all-wool clothes that were

18.50 to 25.00

but just now we are having cut prices in all our high price suits. They will cost you now much less than before.

We Carry All Kinds of Underwear.

Sleeves long or short. Drawers in knee lengths and full lengths 25c and 50c.

gress of March 3, 1879.

TWO CAPTURED AT PROCTOR.

Men Taken Into Custody Following
Attempt to Hold Up and Rob
Crew of Train.

Muskogee, Okla., June 19.—After
trailing two robbers, who attempted
to rob a freight train at Braggs, and
in a pitched battle shot and killed
Deputy Constable Kirk and wounded
Constable Wicks yesterday morning,
Deputy Sheriff W. H. Clarks of
Braggs and Willie Bryan, a full-blood
Cherokee, captured two men this
afternoon at Proctor, Okla., sixty-

five miles north of the scene of the
robbery. The men gave their names
as Fred Donaldson of Florida and
Fred Wright of Washington.

The men were fatigued and hun-
gry and surrendered without show-
ing fight.

Deputy Clark said that he follow-
ed the trail on horseback until they
struck the dense timber in the Cher-
okee wilds, and then Bryan, who
has a reputation for being very ex-
pert on the trail, followed them on
foot.

When they reached the Frisco road
they secured a hand car from a
gang of section men and pumped
their way to Proctor. At this place
they learned two men had just left
the town. Securing two additional
officers, Clark started on the trail.
He saw a camp beside the railroad,
and sent two of his men to surround
the campers.

Seeing they were surrounded, the
men threw up their hands. They
were unarmed.

Neither of the men will make a
statement except that the two men
captured this afternoon are not gull-
ty. The men were brought here late
this afternoon and are confined in
jail under a heavy guard.

A Correction.

In Saturday's issue of the News the
statement appeared that Mr. T. B.
Liner had secured the position as
penmanship teacher in the State
Normal. It should have read the
County Normal.

Boring Well for Oil.

Grithrie, Okla., June 19.—With the
belief that Woods County is resting
over oil and gas, people are boring
near Alva, according to Harry A.
Noah, an attorney of that place.

"We are now down 1,700 feet and
expect to go to 3,000," said Mr. Noah,
"and at least find out just what the
indications are below us. So far we
have found no limestone, so prevail-
ent in Oklahoma east of the Arkan-
sas River, the Woods County forma-
tions being chiefly shale. There is
one strata about five feet thick of
what geologists call shell rock, and
the general character bears out the
theory that Oklahoma was at one
time under water."

Mr. Noah, as well as others, be-
lieves that practically all of Oklaho-
ma is oil and gas territory.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the
sense of smell and completely de-
range the whole system when enter-
ing it through the mucous surfaces.
Such articles should never be used
except on prescriptions from reput-
able physicians, as the damage they
will do is ten fold to the good you
can possibly derive from them. Hall's
Catarrh Cure, manufactured by F. J.
Cheney & Co., Toledo O., contains no
mercury, and is taken internally, act-
ing directly upon the blood and mu-
cous surfaces of the system. In buying
Hall's Catarrh Cure be sure you get
the genuine. It is taken internally
and made in Toledo, Ohio, by F. J.
Cheney & Co. Testimonials free.
Sold by Druggists. Price 75c per
bottle.

JIM CROW CASES DISMISSED.

Complaints Against All Roads but One Are Withdrawn From Corporation Commission.

Guthrie Okla. June 19—Cases against Oklahoma railroads filed with the Corporation Commission by S. Douglass Russell of Langston and Dr. W. H. Gernaglin of Oklahoma City both negroes for better Jim Crow accommodations were dismissed today save as to the F. S. & W. which were continued for the term. Among other things, the negroes ask for sleeping cars and first and second class day coach accommodations. Cases against the Midland Valley and the Katy were dismissed by the complainants agreeing the service was sufficient and in the cases against the Frisco R. I. and Santa Fe the roads agreed by January 1 through those sections of the State where negro travel is substantial to haul Jim Crow cars first and second class with conveniences for the sexes in each. There is no agreement as to sleeping car accommodations. Action was brought under the Constitution that requires the facilities of the roads to be equal.

RAILROAD TAX INCREASE.

Oklahoma Board of Education Ratifies Assessments of Several Roads in New State.

Guthrie Okla. June 19—The State Board of Equalization has ratified the 5 per cent increase over last year in the assessments on the main track including branches of the Atchafalaya, Topeka and Santa Fe, the Gulf Colorado and Santa Fe the Wichita Falls and Northwestern the Kansas and Arkansas Valley, (Frisco) the Frisco System the Colorado Texas and Mexican, the Midland Valley the Kansas City Southern the Arkansas Western and the Missouri Kansas and Texas Sidetrack and buildings will be finally passed upon next week. The Kansas City Mexico and Orient was assessed at \$12,000 per mile the Fort Smith and Western at \$17,000 for main track and \$3,000 for sidings per mile the Missouri Oklahoma and Gulf was increased 5 per cent over last year and assessed \$3,000 per mile for sidings. The Oklahoma Central the Fort Smith and Poteau and Western and the Missouri and Louisiana companies are accepted as levied by them to the board.

The Barnes Oil Company was increased to \$30,000 total valuation the Bartlesville Oil and Gas Company to \$90,000 the Duquesne Oil and Gas Company to \$50,000 and the Minnetonka Oil Company to \$22,400. The board will meet Monday to equalize the valuations as returned by counties. It is indicated all classes of property other than public service holdings will be increased about 20 per cent over last year.

RESCUE WORKER HERE.

Solicits Funds for The Aid of The Home.

Mrs. A. H. Tannehill vice-president of the Holmes Home of Redeeming Love a rescue home for outcast girls and young women located at Guthrie was in the city yesterday and today soliciting funds for the home. They are preparing to move from Guthrie to Oklahoma City where land has been purchased and buildings adequate to the demand are being erected. This institution is one which is much needed and which is worthy of your support. The Holmes Home of Redeeming Love has purchased a downtown receiving home which is always open. Every appeal from any class of unfortunate girls will be heard and none ever turned away. If she has made her first mis-step or if betrayed through her trust in some rascally promise of marriage or deep in sin in the brothel or out sick forsaken enslaved by liquor or drug or in any condition of degradation the Home of Redeeming Love holds out-stretched arms of specor and a card to the Superintendent of the Holmes Home of Redeeming Love Oklahoma City will bring assistance to any girl in the new state.

BOARD AWARDS TWO CONTRACTS

Agricultural Department Governing Body Says no Conflict With Board of Public Affairs.

Guthrie Okla. June 19—Declaring there was no conflict between it and the Board of Public Affairs the State Board of Agriculture awarded contracts for new buildings for the Connors and Murray District Agricultural Schools at Warner and Tishomingo to the McKay Construction Company of Muskogee. The awards aggregate \$37,412. The board after two days session and transacting much business announced that it would not take up the county demonstration farm work authorized under the Russell act of the last legislature until January. In awarding the contracts the board says it is acting within its constitutional rights.

Muskogee Town Lot Cases.

Guthrie Okla. June 19—District Attorney Gregg is awaiting permission from the Department of Justice at Washington to delay receiving the proposed motion to squash the Muskogee town lot indictments until the 1st day of the September term at McAlester. Attorneys G. H. Haskell and others gave notice of such filing but it is understood that Judge Marshall of Salt Lake assigned to the case by the Washington Government desires to go abroad to return in September. If this is followed arguments will be heard in Ardmore during the October term. If permission is denied to follow the plans the attorneys agreed upon in McAlester last night the defense will file its motion the first term in the day in July and it is indicated insofar upon it being heard the following rule day or the first Monday in August. Defendants expect their motion to quash to be sustained.

SCHOOL LAND IMPROVEMENTS.

Commissioners After Conference With Lessees Adopt Schedule of Allowances for Expenditures.

Guthrie Okla. June 19—For adjusting protests against the State's 1906 appraisement of school land and improvements which may be made by lessees the Board of Land Commissioners after conference with the lessees' association has adopted a schedule and classification. The State will name an adjuster who will act with an advisory board of two in putting a price upon improvements and as rapidly as the adjustments are made upon school land ordered sold by the Legislature those areas will be placed on the market. The following which are practically the same as adopted by the Board last year for guidance of the appraisers was adopted:

- 1 For the breaking of prairie land and preparing the same for cultivation—the minimum of \$2 and the maximum of \$4 will be allowed
- 2 For preparing grub and stony lands in a fit state of cultivation—not more than \$20 per acre
- 3 Fencing The present cost of material and labor less 3 per cent per year for deterioration
- 4 Buildings and appurtenances. Present cost of labor and material less 4 percent per year for deterioration
- 5 Wind mills pumps tanks Present cost less 5 per cent for deterioration per year after the first year.
- 6 Drainage and irrigation ditches and artificial ponds which are still in useful condition—actual cost of construction
- 7 Cistern cellar cave and storm houses including improved springs—actual cost of production if still in useful condition
- 8 Wells—cost of procuring water upon the tract of land
- 9 Fruit and ornamental trees alfalfa and tame grasses shrubs and small fruits—at a fair and reasonable value when used in connection with the land

News From The Capital

SECRETARY OF STATE AS A GOLFER.

Philander C. Knox, secretary of state, is an enthusiastic golfer, and on pleasant afternoons he may be often seen engaged in contests with the president or other prominent Washingtonians on the Chevy Chase golf course in the outskirts of the capital. The picture shows him in his golfing outfit ready to make a drive.

NORSE RECORD IN MINNESOTA.

Stone with Runic Inscription and Date 1362 Exhibited in Chicago—Is Well Preserved.

Chicago.—What the owner, Hjalmar Rued Holand of Ephraim, Wis., considers positive proof that Europeans discovered America more than a century before the landing of Columbus is furnished by a stone bearing an inscription in Runic characters and the date 1362. Mr. Holand is curator of the Sons of Norway Historical Archives, and the Runestone, so-called, which has been placed on exhibition in the rooms of the Chicago Historical society, was found in Douglas county, Minnesota. Copies of the inscription and photographs have been sent to the University of Christiania, where no valid criticism of its authenticity was offered. The inscription as translated reads as follows:

"Eight Goths and 22 Norwegians upon a voyage of discovery from Vinland westward.

"We had a camp by two skerries, one day's journey north from this stone. We were out fishing one day. When we returned we found ten men dead with blood and dead. Ave Maria, save us from evil.

"We have ten men by the sea to look after our vessel, 41 days' journey from this island, year 1362."

The language, as explained by the translator, is that of early times in southern Sweden, and is not greatly different from the Norwegian language of the present time. The stone is in an excellent state of preservation, and most of the characters are perfect.

DEVICE PHOTOGRAPHS SOUND

Cleveland Scientist Says He Will Distinguish Between Voice and Instrument.

Cleveland, O.—Prof. Dayton C. Miller of the Case School of Applied Science here says he has discovered a means of photographing sound. By the use of his newly perfected device he believes it will be possible to distinguish in films the difference between the tones of a human voice and the tones of a musical instrument.

The nearest that scientists have come to reproducing sound waves heretofore has been to make them visible on smoked paper. Several photographs have been made on the regular print paper, but they have been small and imperfect. The invention of Prof. Miller directly photographs the sound waves, magnifying them 2,000 times and recording them on film.

In his investigation Prof. Miller has used a harmonic analyzer, an instrument made in Switzerland, which separates sound waves into their component parts, determining whether a certain photographed sound wave was made by a flute, a bell, a violin or other musical instrument.

It is his purpose to tabulate the results of his experiments for the use of other investigators, a labor that will require several years' time.

IS FOUR SCORE FIVE

Levi P. Morton Dean of Living Ex-Vice-Presidents.

Has Just Celebrated Eighty-Fifth Birthday, and is Still hale and hearty—Accumulated Fortune in Banking Business.

New York.—Still fresh and vigorous in mind and sound in body, Levi P. Morton, the oldest living vice-president of the United States, recently celebrated his eighty-fifth birthday anniversary. Besides Mr. Morton there are now living only three other men who have held the position of vice-president of the United States—Adlai E. Stevenson, Theodore Roosevelt and Charles W. Fairbanks. Not only is Mr. Morton by far the oldest among his surviving colleagues, but, with one exception, he has already attained a greater age than any other former vice-president. The only exception was John Adams, the first vice-president of the United States, who died in 1826 at the age of 90 years.

While Mr. Stevenson has reached the age of 74, the other two surviving colleagues of Mr. Morton are still comparatively young men, Mr. Roosevelt being 51, Mr. Fairbanks 57 years old. Of his predecessors who have joined the silent army only John Adams lived to be older than Mr. Morton is now. Thomas Jefferson died at the age of 82, Hannibal Hamlin at the age of 81 and Aaron Burr at the age of 80. The latter holds the record in one respect, however, among the deceased former vice-presidents; he survived the end of his term of office by 31 years, a longer period than shows the record of any other of the deceased former holders of that office. Mr. Morton will have to live until he is 100 years old to surpass Burr's record.

Levi P. Morton is a New Englander, and the descendant of a family of clergymen. His family was founded in

Levi P. Morton.

America by Rev. George Morton, one of the conspicuous members of the Pilgrim colony of England. He was the financial agent of the Pilgrims and raised and conserved the funds which fitted out the expedition on the Mayflower, although he was not a passenger on the initial voyage. He arrived in America in 1623. Levi P. Morton may have inherited his taste for finance from that treasurer of the Pilgrim band.

When at the age of 16 years he saw no hope of realizing his ambition to go to Dartmouth college, Levi P. Morton entered a country store at Enfield, Mass., where he worked until he has enough money to start a modest establishment of his own, at Hanover, N. H., in 1849, at the age of 25 he came to Boston and became a partner in a small dry goods house. Five years later he went to New York, where he joined a dry goods firm, but immediately started a banking business, appreciating that the rebellion would mean a great demand for financiers to handle the government loans. Mr. Morton founded the banking house of Morton, Bliss & Co. in New York, and Morton, Bliss & Co. in London, and dealt largely in government bonds. Just before the close of the war, when he had accumulated a fortune, Mr. Morton gave a dinner to the creditors of his former dry goods firm. Every one found under his plate a check for the amount still owing him with interest.

Mr. Morton's first essay in politics was in 1878, when he was elected to congress from a New York district. He might have been president if his loyalty to the wishes of Senator Roscoe Conkling had not made him refuse the nomination for vice-president on the ticket headed by James A. Garfield in 1880. President Garfield made him minister to France in 1881, and Mr. Morton made a fine record. He was elected vice-president in 1893 on the ticket with President Harrison, but was not nominated with the president in 1892. In 1894 he was made governor of New York. Since his retirement from the governorship in 1896 Mr. Morton devoted himself to the direction of his large financial interests and to extensive travels abroad. While in this country he spends most of his time in New York or Washington.

Credit Given.

"You don't give Harold credit for the courage and business sense he possesses," said Miss Cumrox. "Yes I do," answered her father. "He has proved both by asking my permission to marry you."

Cabinet Vetoes "More Daylight" Plan

WASHINGTON.—Father Time has scored another victory. President Taft and his cabinet, after mature deliberation, have decided not to encroach upon his prerogatives or question his right to run the clocks of the government. Whatever distress may have been caused the old man by the suggestion that the government could regulate its clocks and run them without regard to the rising and setting of the sun was removed the other day when the cabinet formally decided that it would not attempt to interfere with the well established routine of affairs.

The federal clocks will continue to tick out standard time and Father Time, with absolute confidence, can depend upon their accuracy.

The federal employes will not be required to set his alarm clock to commence work with the rising of the sun, nor will he be free to gambol on the green during the hours of early afternoon. His allotted toll will be performed during office hours which have long been established.

While it was generally admitted by

the president and his advisers that the welfare of the clerks and the business interests of the government could be promoted so far as the volume of work was concerned, by regulating the hours of labor according to the rising of the sun, it was found that the plans which have been advanced by organized movements in Cincinnati and other western cities and are to receive parliamentary consideration in England are not feasible short of a revolution which would disturb banking and commercial conditions generally and be widespread in its effect upon the railroads.

Advantages to be derived by permitting government clerks all over the country to commence work in the cool hours of early morning during the summer season and discontinue labors in the early afternoon, with ample opportunity to enjoy the sunlight in daily afternoon vacations, appealed to the president. However, in view of the fact that the government could not compel financial and commercial houses to adjust themselves to the proposed change, and the further consideration that the business of the post office department would be vitally affected, entailing a change of schedules upon all railroads, caused the administration to decide not to attempt to encroach upon the prerogatives of Father Time and for the present at least there will be no change in the daily routine of the government clerks.

Job for Widow to Atone for Injustice

To try to atone for injustice done to her husband by the United States, President Taft has ordered the appointment of Mrs. Nina L. Carrington to a position in the civil service without an examination.

Mrs. Carrington is the widow of the late Maj. Frank del Carrington, at one time an officer in the Twenty-first United States Infantry. Maj. Carrington was convicted by a civil court in the Philippines on a charge of misappropriation of funds. He was sentenced under the Spanish code to penal servitude for a term of 60 years.

This sentence was nullified by a decision of the United States supreme court, and Maj. Carrington was released after he had served several months. He lived for some time in Manila after his release. At his

death he was survived by a widow and two daughters.

Maj. Carrington came under the jurisdiction of the insular courts as a result of his transfer for temporary duty from the Twenty-first infantry to the command of a battalion of Filipino scouts. He commanded this battalion at the time it was brought to St. Louis in 1903, to take part in the exposition.

The charges against him were based on financial operations which took place at that time. Many of his brother officers insisted that the difficulties in which he became involved were the result of carelessness rather than criminal intent. The evidence against him, however, was sufficient to cause his court-martial and consequent dismissal from the army. His conviction by the courts of the islands was followed by imprisonment in Bilalid prison.

During his incarceration, Mrs. Carrington and her daughters, through the efforts of influential friends, secured positions in some of the government departments in Washington. The order issued by the president places the widow of the convicted officer in the classified service.

Gun Play of Legislator Wins a Post

HENRY H. DENHAM, the man who knows the difference between a pocket gun and a shoe-buttoner, has become an elevator conductor in the senate office building at Washington. He is a product of Kentucky, and one of Senator Bradley's most valued constituents. This is the first permission the senator has been able to postle from the tree, even with the longest kind of a pole, and it was handed right over to Mr. Denham. It is worth only \$1,200 a year, but that beats nothing all hollow.

Mr. Denham was a member of the Kentucky assembly from the counties

of Monroe and Metcalf. He was critically ill with pneumonia when the fight came to overthrow Gov. Beckham, the Democratic primary nominee for senator, and elect Mr. Bradley, and every day at noon Mr. Denham was carried over to the statehouse on a stretcher and voted for Mr. Bradley. The contest was still in full swing when Mr. Denham was able to be out. It had become the practice to arrange pairs, and but few members of the legislature attending the routine proceedings, all waiting for something definite to develop.

Capt. Longmeyer, sergeant-at-arms of the house, one day drew a gun, and made some observations regarding the ludicrous practice of pairing. Mr. Denham quietly but promptly pulled a weapon from his own pocket, and said:

"Capt. Longmeyer, whenever the firing begins, remember that I am paired with you."

Takes Active Part in Capital Affairs

MRS. JONATHAN P. DOLLIVER, wife of the senior senator from Iowa, whose recent attacks on the schedules of the Aldrich tariff bill in the interest of the "ultimate consumer" have caused more excitement than has the speech of any other senator, is, like her distinguished husband, well equipped mentally. She is a graduate of Wellesley college.

Before her marriage Mrs. Dolliver was Miss Louise Pearson, and she held the chair of mathematics in Northwestern university at Evanston. She is a brilliant conversationalist, and the affairs which she gives at her home on Massachusetts avenue are regarded as treats by those fortunate enough to be invited.

Mrs. Dolliver cares little for the frivolities, but she entertains with the hospitality that is the secret of successful entertainment, and takes an

active part in the serious affairs of the capital city. She is a prominent member of the Daughters of the American Revolution and has represented the state of Iowa in the continental congresses at the annual Washington meeting for years.

Mrs. Dolliver is essentially a home-loving woman. She superintends the education of her children and studies the public questions of the hour so that she can keep in touch with the interests of her husband, whose speeches in the senate are always attended by overflowing galleries. Not the least interested spectator at these times is Mrs. Dolliver, who understands as much of the present schedules and of "maximums and minimums" as does any woman in Washington.

New Enterprise.

Sandy Pike—Lady, kindly give me a dime? I'm saving up for a great enterprise.

Kind Lady—What are you saving up for now?

Sandy Pike—Saying up to get \$10,000,000 together and then I'll telegraph to Mars.

TORPEDO IS DEADLY

Destructive Engine of War Invented by Deserter.

Latter Is Prisoner on Governors Island, N. Y.—Missile Explodes Twice and Demolishes Everything It Hits.

New York.—Zaccheus Favor, former private in the Coast Artillery Corps, United States army, now serving a sentence of two years in Castle William on Governors Island for desertion, is about to apply for a patent for a death-dealing missile, which he and his friends in the prison, as well as a firm of New York lawyers, who have agreed to exploit it, declare to be the most destructive engine of warfare ever invented.

While refusing to give any technical details of his deadly device, Favor describes it in general as a flying electrical torpedo that explodes twice, once when it strikes the object against which it is fired, and a second time after it has entered the object that is to be destroyed.

Favor is about 23 years old, and said that he had been working on his double-action torpedo about four years. He admitted that he had enlisted in the army to learn all about torpedoes.

After he had gained what he considered a thorough knowledge of them he decided it was time to quit the army and sell his invention. He did quit, but the government caught him, and he was court-martialed and sentenced to Castle William.

When not mowing the lawns, grinding bones to make fertilizer, sweeping the walks or shoveling coal, Favor says, he has spent all of his spare time perfecting his invention. A few days ago he turned over the plans and specifications to his New York lawyers, who will immediately apply to the patent office in Washington for a patent.

If that is granted the lawyers will look around for some government to which to sell the secret of the invention.

The imprisoned inventor said the other day that he had been indirectly approached by a foreign government but that he had declined to enter into negotiations for the present.

"Though I am a prisoner sent here by the government of my country, I am still patriotic enough to want my native land to have the first chance at this torpedo," he said.

"What do you shoot the thing from?" Favor was asked.

"Ah," he answered, "there is the secret of the whole thing. It is shot from nothing at all. There are no tubes, such as are used in firing the Whiteheads.

"It is like a great electrical bird, and it soars through the air. It can be fired from anywhere, and is just as effective for land defense as for sending warships to the bottom of the sea.

"Speaking of warships, one well-placed projectile that can be fired from a distance of ten miles, if it strikes the ship, will send the ship and all the men in her to the bottom. This torpedo of mine is a double exploding affair. That is, it explodes first to effect an entrance into the ship or fortification, and once inside it goes off again to finish the job."

"Suppose you fired one of them at a regiment of soldiers, what would hap-

pen to the soldiers?" Favor was asked.

"It would kill every blessed one of 'em," answered Favor.

"Would anything be left for the second explosion?"

"No, that would just scatter about what was left," added the inventor.

"Suppose you set one off in the cellar of one of New York's big buildings, what would be the finish?"

"There would not be enough of that building left to fill a cigar box," responded the inventor proudly.

Favor said he would deal through his attorneys, pending his release from prison.

JUDGE QUITS, SWEEPS STREET

East St. Louis Magistrate Forced by Health to Resign Office and is Now Wielding Broom.

East St. Louis, Ill.—Forced by order of his physician, to resign his office of police magistrate and obtain employment where he could enjoy pure air and outdoor exercise, Judge Thomas Stanton has started to work as a street sweeper in East St. Louis.

As police magistrate Stanton received an average of \$300 per month. As street sweeper he receives \$1.50 per day.

Stanton was elected police magistrate of East St. Louis two years ago, after filling the unexpired term of Magistrate Patrick McKane. The time and attention he gave his office told on his health and he became a sufferer from stomach trouble. One year ago he was taken to the hospital, and for several weeks it was feared he would die.

Stanton sweeps the street from Broadway to Missouri avenue, on which is located the city hall, police headquarters, fire department, the justices' offices, among them being the office he occupied, a bank and several other large business houses.

Dog Pays Own License

Hidden Coins Brought Out When Time to Settle With Flint (Mich.) Authorities Comes.

Flint, Mich.—Max, a black-and-tan dog owned by Charles C. Fitzhugh, a local pharmacist, has come through with a dollar to pay his annual license and thus insure safety from the city dog catcher for another year. And Max earned all this money himself.

In the rear of the store where his owner works Max, who is a trick dog, has a box half filled with excelsior, in which he hides pennies and nickels earned by doing tricks. When a customer comes into the store the dog starts his repertoire of stunts, plays dead, walks lame, says his prayers, "talks" to the best of his ability, walks erect on his front legs and then on his hind legs, sits up and does numerous other tricks for the entertainment of his visitors. The majority of the patrons of the store know the dog and always when he has finished his act he is given a penny or a five-cent piece, which he hides in his box.

The other day when the animal's owner decided that the license should be paid he sent the dog back to the box time after time until the canine had brought to him a dollar in pennies and nickels, and, placing the cash in

an envelope, the owner started for the office of the city clerk, the dog carrying the envelope in his mouth.

Whenever the dog wants a piece of candy from the showcase he gets the money from his box, tramps up to where his master is and exchanges it for chocolates.

There is no particular breed about Max. He was a "tramp" dog and Mr. Fitzhugh took him in, gave him a home and taught him tricks.

Dollar Page from Life.

Princess Anne, Md.—A dollar bill that is a page out of the past life of an unknown pet of fortune is possessed by Beverly T. Hitch, the mill man and rural mail carrier in the upper part of Somerset county. Hitch doesn't know from whom he got the bill and never discovered that he had a dollar with a history until a few days ago, when making change with a customer who had come to his mill he noticed that on the back of one of the notes which he was about to pass to his customer there was a typewritten statement reading:

"To whom it may concern: This is the last of a fortune of \$200,000 left me by my uncle. Though young, I have been going some while I lasted. Signed, V. A. H."
